Miss BULL,

Vivisection experiments on Cats, Dogs and other animals as conducted in this country are often *ABOMINABLY CRUEL*. The evidence is certain, for it is supplied by the vivisectors themselves in their scientific journals .

*A NUMBER OF DOCTORS* who have studied the question closely have refuted the claims made for vivisection that it is the only way of finding cures for human disease.

*Documentary proof of these two statements will be supplied to anyone writing to address given below.*

In any case, it is inconceivable that humanity can really be benefited by *THE PRACTICE AND TOLERATION OF CRUELTY*.
