BEWARE CAT THIEVES!

EVERY day, in many parts of the country, but chiefly in London, cats are being stolen.

Cat thieves tour the streets at night in vans. They carry bait to tempt any cats that may be out. Many cats fall easy victims, and are whisked away. Most of them never see their homes again. Their owners tramp the streets looking for them; they ask at the police stations and cat shelters; they advertise in the newspapers. But puss never comes back. Only the memory of him remains.

WHAT HAPPENS TO STOLEN CATS?

A few may be sold for their furs or for other purposes. **BUT MOST OF THEM ARE SOLD FOR VIVISECTION:** that is, for painful

experiments on their living bodies. The thieves sell them to dealers, who re-sell them to vivisection laboratories. If you want to know what happens to them in the laboratories, write for our leaflet, "Experiments on Cats."

ARE THE THIEVES NEVER CAUGHT?

Sometimes, but not often. Some have been successfully prosecuted. If you will keep a sharp lookout, there may be more prosecutions, and in this way the thieves will be discouraged. It is up to **YOU!**

This is "Monty," who went to court

**BRITISH UNION FOR THE
ABOLITION OF VIVISECTION**

47, WHITEHALL, LONDON, S.W.1.

- 11 **Litter.** For three or more Kittens of the same Litter over two and under three **calendar months** on the day of the Show.
- 12 **Kittens.** For Kittens under nine months old on the day of Show. Kittens under two calendar months may not be shown.
- 13 **Brace.** For two Cats (not necessarily the same colour) belonging to the same exhibitor, each of which must be entered in at least one Class other than Team or Club Classes.
Kitten Brace. The same as above, but for "Cats" read "Kittens."
- 14 **Pairs.** For two exhibits of the same variety and colour, each of which must be entered in at least one other Class, other than Club or Team Classes.
- 15 **Team.** For three exhibits (not necessarily the same colour) belonging to the same Exhibitor, each of which must be entered in at least one other Class besides Brace or Club Classes.

N.B.—A Team may consist of Cats, Kittens, or Cats and Kittens. Brace exhibits are judged on individual merit. Pairs on their similarity to one another.

Exhibitors are reminded that all Club Specials are confined to fully paid-up members. Fanciers should make sure that they have paid their subscriptions for 1954 to avoid disappointment.

CHAMPIONSHIPS

CHAMPIONSHIPS. Two Governing Council Championships will be granted for those breeds where separate classes are scheduled for each sex, provided the total number of entries in the two classes is *seven* or more. In cases of amalgamation or where the total entries in the two classes are less than *seven*, only one Championship will be given.

The following rule was passed at the Meeting of the G.C.C.F. held on 10th July, 1935:—

"When the number of exhibits in the two Open Classes is below seven only one certificate should be given. If, however, the winner of the opposite sex be of very high quality, the judge may be empowered to give the second championship subject to the approval of another recognised judge of that breed.

CH. KILLDOWN SULTAN

Miss D. WELLS of Carson Cattery, Lane End House, Shinfield, Berks., writes :—

“ I was very thrilled to hear from the Show Manager of the Lancashire and North Western Counties Cat Club Show, that I had won one of your prizes. I have used Kit-zyme for years and my cats adore it. In fact, one Siamese would be quite willing to make a meal of the tablets. The small bottles are no good to me and even your big tins do not last long.

My Seal-point stud, Killdown Sultan, gained his final Challenge Certificate at that Show. He is the only Seal male to become a Champion this season, so I am very pleased with him and I feel some of the credit must go to Kit-zyme. Again many thanks.”

THEIR SHIELD AGAINST INFECTION

Immunize them against

ENTERITIS • DISTEMPER SHOW - FEVER

Many of the Country's leading breeders have now adopted this simple, efficient ENTEROFAGOS method of immunizing their stock against the risk of microbic intestinal infection: ENTEROFAGOS Polyvalent Bacteriophage is supplied in glass ampoules, each containing one dose, which is given by mouth. The practice is to administer the ENTEROFAGOS each week, with additional dosage immediately prior to Showing.

This product is completely harmless and therefore safe to give at the first sign of trouble, even before the exact cause of infection has been diagnosed. ENTEROFAGOS destroys the specific microbes that may be present, thus allowing the infected condition to clear up rapidly. If the infection has some other cause, ENTEROFAGOS prevents the microbic development which so often causes secondary complications.

For the treatment of associated microbic conditions which show themselves in skin troubles, eye infections and catarrh, ANTIPEOL Cutaneous Vaccine Ointment, OPTHALMO-ANTIPEOL and RHINO-ANTIPEOL have an impressive reputation with many of Britain's foremost breeders.

Protect
against

Feline Infectious Enteritis

Feline Infectious Enteritis is a very infectious virus disease of cats, sudden in onset and usually fatal. It may be introduced into a cattery following exposure to infection at shows and spreads from cat to cat in a locality. All breeds are susceptible and in some, such as the Siamese, the mortality rate is very high.

To save your cat from this disease consult your veterinary surgeon. He will advise you regarding protection, now possible by the introduction of
