feline

infectious enteritis vaccine

for the

protection

of cats

Feline infectious enteritis is a highly infectious and dangerous disease of cats: it kills 9 out of 10 of those that contract it. Treatment is usually unsuccessful. The best protection against this dreadful disease is vaccination with FEV. Choose a time when your cat is fit and healthy then ask your veterinary surgeon about protection with FEV feline infectious enteritis vaccine.

Turney.  
Also in Classes 60, 61, 62, 63, 172.

# Beware Cat Thieves!

Every day, in many parts of the country, especially in London, cats are being stolen.

Cat thieves tour the streets at night in vans. (Always take the number of any vehicle you suspect). They carry bait to tempt any cats that may be out. Many cats fall easy victims, and are whisked away. Most of them never see their homes again. Their owners tramp the streets looking for them; they ask at the police stations and cat shelters; they advertise in the newspapers. But puss never comes back. Only the memory of him remains.

## CATS SHOULD NOT BE OUT AT NIGHT

Never let your cat stay out at night. If you do, he may be picked up by thieves, and you will never see him again. It is **wrong** to put a cat out at night. Even in the daytime your pet is not really safe from thieves. Cats are sometimes stolen in daytime.

## WHAT HAPPENS TO STOLEN CATS?

A few may be sold for their furs or for other purposes, **but most of them are sold for vivisection:** that is, for painful experiments in their living bodies. The thieves sell them to dealers, who re-sell them to vivisection laboratories. If you want to know what happens to them in the laboratories, send for our leaflet "Experiments on Cats."

## ARE THIEVES EVER CAUGHT?

Sometimes, but not often. Below are particulars of some recent cases that came before the courts. If you will keep a sharp lookout there may be more prosecutions. **IT IS UP TO YOU.**

**22nd June, 1961.** At Downham Juvenile Court a boy was fined £5 for stealing a widow's cat. He sold it for 10/- to a man who had offered that sum for any cat brought to him.

**10th August, 1962.** The 'Edinburgh Evening News' reported that a livestock dealer had been fined £85 for having 252 stolen cats in his possession. Detectives discovered that he made his living by selling live cats to laboratories for 25/- apiece and skins of dead cats for 30/- each.

**20th July, 1963.** According to the 'Daily Mail,' reporting a case at the Pembrokeshire Assizes, at Haverfordwest, a detective told of an admission by Winston Hafferman that he kept coshes in his car for knocking out stolen cats in order to sell them to a laboratory in Cheshire.

**All these stolen cats were destined for laboratories**
