TVL ENTEROVAX PROTECTS

At six weeks a kitten loses the natural immunity it gains from its mother's milk and becomes susceptible to the most deadly of cat diseases - Feline Infectious Enteritis. This killer strikes quickly; epidemics can sweep through a district without warning. Nine out of ten cats that contract the disease die; from first symptoms to death may be only a few hours; **THERE IS NO CURE**. The *only* safeguard against Feline Infectious Enteritis is to vaccinate.

Vaccination with TVL Enterovax will give your cat effective protection. Six weeks is the most suitable age to vaccinate, but a healthy cat can be vaccinated at any age. If your cat is to be shown, or is going into a cattery, vaccination is essential.

Ask your veterinary surgeon to protect your cat with TVL Enterovax Feline Infectious Enteritis Vaccine, and to give you a vaccination certificate.

The following Rule was passed at the meeting of the G.C.C.F. held on 10th July, 1935:—

“When the number of exhibits in the two Open Classes is below seven only one certificate should be given. If, however, the winner of the opposite sex be of very high quality, the Judge may be empowered to give the second championship subject to the approval of another recognised Judge of that breed.”

SHOW RULES

1. Exhibitors are responsible for the correct description of their Cats, and if dispute arises after purchase shall (on proof of false or erroneous entry) receive back the exhibit and refund to the purchaser the full amount paid.

2. **Sale of Exhibits.** Prices of Cats does not include baskets or blankets. All Cats and Kittens are examined by a Veterinary Surgeon and passed as free from all disease before admission to the Show, but the Siamese Cat Society of the British Empire cannot hold themselves responsible for Cats and Kittens bought at the Show.

3. Judges are empowered to withhold any prize or championships in any Class if the exhibits do not in their opinion possess sufficient merit.

4. Prizes will be paid from the Judges' award slips and not from the catalogue, and Cats will be sold from the entry forms and not from the catalogue.

Special Prizes. It will be noticed that all Club Specials are confined to fully paid-up members. Members exhibiting should make sure that they have paid their subscriptions for 1965 to avoid disappointment.

5. Should any Judges be prevented from fulfilling their engagements, the Committee reserve to themselves the right of appointing other Judges in their stead.

6. Entries unaccompanied by the proper amount of fees will not be accepted.

7. Exhibits actually received in the Show Hall cannot be withdrawn from competition.

8. The Committee reserve to themselves the right to refuse any entry without giving a reason.

9. An announcement in “Fur and Feather” of any alteration or addition made in the schedule or in these regulations shall be deemed sufficient notice thereof.

10. All correspondence must be accompanied by a **stamped addressed envelope** if a reply is desired.

11. The Committee will be most anxious for the care and safety of the exhibits, but it must be distinctly understood by exhibitors and all other persons that the Committee will not be responsible for the loss, detention of, or damage to any Cats or other property, whether arising from accident or any other causes whatsoever, or from any act of omission of themselves, their officers, agents, servants or others.

Their shield against infection

protect them against
**ENTERITIS • DISTEMPER
SHOW-FEVER**

Many of the Country's leading breeders have adopted this simple, efficient ENTEROFAGOS method for the regular protection of their stock against the risk of microbic intestinal infection: ENTEROFAGOS Polyvalent Bacteriophage is supplied in glass ampoules, each containing one dose, which is given by mouth. ENTEROFAGOS is administered each week, with additional dosages immediately prior to Showing.

The product is completely harmless and safe to give at the first sign of trouble, even before the exact cause of infection has been diagnosed. Therefore, when in doubt, give ENTEROFAGOS immediately—freely and frequently. ENTEROFAGOS destroys the specific microbes that may be present, thus allowing the infected condition to clear up rapidly. If the infection has some other cause, ENTEROFAGOS prevents the microbic development which so often causes secondary complications.

For the treatment of associated conditions which show themselves in skin troubles, eye infections and catarrh, ANTIPEOL Ointment, OPHTHALMO-ANTIPEOL and RHINO-ANTIPEOL have an impressive reputation with many of Britain's foremost breeders.
