Sonata Sovrano

MRS. F. RODEN of Anchorage, Third Avenue, Stanford-le-Hope, Essex, writes:

"Our very lively kitten, Sonata Sovrano, who is by Ch. Bonavia Content and Ch. Martita of Allington, has won his Open Class every time shown and he had five First prizes to take home from the Southern Counties Show last January."

"The members of our cat family enjoy a good well-balanced diet with plenty of protein and like his companions, Sovrano is given Kit-zyme every day to ensure an adequate intake of the B vitamins. This routine meets with their collective approval! They all benefit from Kit-zyme and I am consistently commended on their condition. Thank you for your reasonably priced contribution towards feline well-being."

ARE YOUR CATS REALLY 'WITH IT'?

... I have noticed a definite improvement in the general condition of my *cats*. They seem happier and livelier since taking your Crest.

... I am very pleased to tell you of my satisfaction with the seaweed blend purchased from you. Your product was added to both *dogs'* and *cats'* food every day, being readily accepted, and in my honest opinion colour is deeper, and improved bloom on the coats of the *Boxers* and *cats*.

... Would you please send me a packet of your seaweed blend for my *Siamese* cat. He will not eat any food without a sprinkling of it and I am sure that it helps to keep him in his wonderful condition which is magnificent.

... I am pleased to report a marked improvement in the condition of our *cat*, even after such a short time. Already the eczema is beginning to clear and new fur is growing on the bare places. She seems more alert and her eyes are brighter. I have every confidence that within three weeks she will be completely well again. I shall certainly recommend the food to all my friends.

... At the National Cat Club Show at Olympia last December, I purchased your seaweed blend for my two pedigree *Persian* cats in the hope that their skin condition might improve. I was very doubtful whether they would, indeed, take the powdered seaweed as they are extremely difficult to dose, and generally refuse even their favourite food when anything is added. However, they made no difficulty at all when your seaweed was added to their normal feeds, and I am delighted in the improvement shown not only in their coats (the scurfy and dry condition has now entirely cleared) but also in their general health. I shall take care to keep a supply of your seaweed blend, and shall also recommend it to my friends for their pets.

... My old *cat* does not seem to notice the seaweed when I add it to his food. This is very unusual as in the past when I have tried to give him any vitamins and such like he would not look at them. So he is now able to get the benefits of this tonic.

—THESE ARE !

We can supply our Crest, unique blend of naturally balanced seaweeds, which provides the fullest possible range of minerals (including high calcium), trace elements, amino acids and vitamins in a completely safe and palatable form.

18. All exhibitors are forbidden to carry their cats around the Show Hall and they must not be held in such a way as to annoy other Cats, especially the adult males.
19. **Registration.** All exhibits must be registered with the Governing Council of the Cat Fancy. Forms can be obtained from Mrs. E. Aitken, Bourneside, Kingswood Lane, Hindhead, Surrey (all Long-Hairs and Short-Hairs), and Miss V. Prentis, 4 Farman Street, Hove, 2, Sussex (all Siamese). All registered Cats and Kittens which have changed ownership since registration **must be transferred** at least three weeks before the Show.

The prescribed declaration on the Club Show entry form that the exhibitor is the bona-fide owner of the exhibit, and that the exhibit is offered for exhibition subject to the Club's Show Rules and Regulations, must be signed and forwarded to the Show Manager with the entry fees. If a cat belongs to more than one person both must be members to compete for Cups and Trophies offered by the Clubs.

N.B.—CHAMPIONSHIPS. Two Governing Council Championships will be granted for those breeds where separate classes are scheduled for each sex, provided the total number of entries in the two classes is SEVEN or MORE. In cases of amalgamation or where the total entries in the two classes are less than seven, only one Championship will be given.

N.B.—The following rule was passed at the Meeting of the G.C.C.F. held on July 10th, 1935 :

“ When the number of exhibits in the two Open Classes is below seven, only one certificate should be given. If, however, the winner of the opposite sex be of very high quality, the Judge may be empowered to give the second championship, subject to the approval of another Judge of that breed.”

Any Other Variety. Cats and Kittens registered as Breeds 13a and 26 may only be entered in A.O.V. Open Classes and in such further classes as clubs may decide to put on for them.

NOTICE. Any cat found suffering from the effects of drugs on entry or at any other time during the Show, will be subject to expulsion from the Show on the authority of a Veterinary Surgeon.

The G.C.C.F. recommend that Exhibitors should not show a Cat or Kitten more than once within 14 days.

WARNING. Breeders and Owners are hereby warned by the G.C.C.F. against the danger of selling **whole litters** to one buyer, as unfortunate consequences may follow.

Any exhibitor whose exhibit has been rejected or withdrawn on veterinary grounds from any G.C.C.F. Show, should produce a Veterinary Surgeon's Certificate stating that the Cat(s) and/or Kitten(s) in question have recovered on a specific date and that there have been no further outbreaks in the cattery.

BEWARE CAT THIEVES!

Every day, in many parts of the country, especially in London, cats are being stolen.

Cat thieves tour the streets at night in vans. (Always take the number of any vehicle you suspect.) They carry bait to tempt any cats that may be out. Many cats fall easy victims, and are whisked away. Most of them never see their homes again. Their owners tramp the streets looking for them; they ask at the police stations and cat shelters; they advertise in the newspapers. But puss never comes back—only the memory remains.

Cats Should Not be Out at Night

Never let your cat stay out at night. If you do, he may be picked up by thieves, and you will never see him again. It is **WRONG** to put a cat out at night. Even in the daytime your pet is not really safe from thieves. Cats are sometimes stolen in daytime.

Are Thieves Ever Caught?

Sometimes, but not often. Below are particulars of some recent cases that came before the courts. If you will keep a sharp lookout there may be more prosecutions. **IT IS UP TO YOU.**

22nd June, 1961. At Downham Juvenile Court a boy was fined £5 for stealing a widow's cat. He sold it for 10/- to a man who had offered that sum for any cat brought to him.

10th August, 1962. The *Edinburgh Evening News* reported that a livestock dealer had been fined £85 for having 252 stolen cats in his possession. Detectives discovered that he made his living by selling live cats to laboratories for 25/- apiece and skins of dead cats for 30/- each.

20th July, 1963. According to the *Daily Mail*, reporting a case at the Pembroke Assizes at Haverfordwest, a detective told of an admission by Winston Hafferman that he kept coshes in his car for knocking out stolen cats in order to sell them to a laboratory in Cheshire.

All these stolen cats were destined for laboratories

Their shield against infection

protect them against
**ENTERITIS • DISTEMPER
SHOW-FEVER**

Many of the Country's leading breeders have adopted this simple, efficient ENTEROFAGOS method for the regular protection of their stock against the risk of microbic intestinal infection: ENTEROFAGOS Polyvalent Bacteriophage is supplied in glass ampoules, each containing one dose, which is given by mouth. ENTEROFAGOS is administered each week, with additional dosages immediately prior to Showing.

The product is completely harmless and safe to give at the first sign of trouble, even before the exact cause of infection has been diagnosed. Therefore, when in doubt, give ENTEROFAGOS immediately—freely and frequently. ENTEROFAGOS destroys the specific microbes that may be present, thus allowing the infected condition to clear up rapidly. If the infection has some other cause, ENTEROFAGOS prevents the microbic development which so often causes secondary complications.

For the treatment of associated conditions which show themselves in skin troubles, eye infections and catarrh, ANTIPEOL Ointment, OPHTHALMO-ANTIPEOL and RHINO-ANTIPEOL have an impressive reputation with many of Britain's foremost breeders.

Discovered trapped in the under-carriage of a train, this cat was freed and found to be suffering from shock and multiple minor abrasions. After a period of treatment at a P.D.S.A. hospital, he was found a good home with an old age pensioner.

The People's Dispensary for Sick Animals

was founded in 1917 to provide free treatment for animals whose owners cannot afford private veterinary fees. Today it is the largest international animal charity, with branches in France, Morocco, Egypt and S. Africa. In the U.K. alone it maintains 84 permanent dispensaries in towns, 24 mobile dispensaries serving rural areas, 6 animal hospitals, 6 stray dogs' homes, and 1 stray cats' home. The P.D.S.A. treats almost ONE MILLION animals yearly, many being the sole companions of the elderly, the infirm and the lonely.

A companion volume to

Stanley Dangerfield's THE PERFECT DOG OWNER

With many illustrations showing most of the popular breeds, this new book contains all the basic information necessary for cat lovers. The author, who is a delegate to the Governing Council of the Cat Fancy, and is well known as a show judge, covers choosing a cat, feeding, training, health (how to keep a cat healthy and how to treat it if it does become ill), and hints on showing. At six weeks a kitten loses the natural immunity it gains from its mother's milk and becomes susceptible to the most deadly of cat diseases—Feline Infectious Enteritis. This killer strikes quickly; epidemics can sweep through a district without warning. Nine out of ten cats that contract the disease die; from first symptoms to death may be only a few hours; **THERE IS NO CURE.** The *only* safeguard against Feline Infectious Enteritis is to vaccinate.

Vaccination with TVL Enterovax will give your cat effective protection. Six weeks is the most suitable age to vaccinate, but a healthy cat can be vaccinated at any age. If your cat is to be shown, or is going into a cattery, vaccination is essential.

Ask your veterinary surgeon to protect your cat with TVL Enterovax Feline Infectious Enteritis Vaccine and give you a vaccination certificate.
