It's a dog's life

Many people vaccinate their dogs but relatively few remember to protect their cats.

Granted, nine is a lot of lives, but even a cat can't protect itself against feline infectious enteritis.

It really is a killer (and kittens are especially vulnerable).

Yet FIOVAX TC vaccine will give your cat or kitten the protection she deserves. So ask your veterinary surgeon for advice about this simple procedure.

FELINE ADVISORY BUREAU

Statement

The Committee of The Feline Advisory Bureau is pleased to be able to announce that during the past 12 months, membership and affiliation applications have been received in numbers exceeding our most optimistic expectation. This, therefore, means that the finances of the Bureau are in a sounder position now than they have been for some time. At the same time, we, through kind sponsorship, have been able to up-grade the standard of our quarterly Bulletin and improve the workings of the secretarial office.

The support has been such that a Conference has been arranged for 22nd SEPTEMBER, 1973, at Liverpool University (and NOT as had been projected in late 1974).

In addition, the Committee is undertaking complete re-organisation of its list of Approved Catteries to meet the unexpectedly large number of requests for this information from the cat-owning public.

The Library and lists of Special Publications continue to expand monthly and the Committee recently published a formal statement on its official views on the subject of cat research and vivisection which will serve to re-assure concerned members of the Cat Fancy.

The Committee would like to take this opportunity of thanking its loyal members for their support in the past and for their perseverance during the change-over of its officers and looks forward to extending a welcome to many new members in the future.

Full membership details are available from :
