GENERAL REGULATIONS AND RULES FOR THE SHOW

The Show will be open to the public at 1.00 p.m. until 5.00 p.m.
Admission: Adults 20p, Children and O.A.P. 10p.

Exhibitors will not be allowed on the Hall Floor whilst judging is in progress before 1.00 p.m.

Exhibitors are reminded that the use of sprays of any kind is forbidden.

An exhibit may not be removed from its pen except by the Exhibitor, a Judge, or a Steward acting for a Judge. Exhibitors are requested to keep their cats in their pens at all times, except for necessary grooming, etc., as close proximity to other cats may lead to exhibits' distress and discomfort.

Exhibitors and visitors are strictly forbidden to interfere with or remove from its pen any exhibit other than their own without the consent of the Show Manager under penalty of a fine not exceeding £5.

No stud advertisement or written or printed matter of any kind other than the official award cards may be put on the pens.

Exhibits at the Club's Shows are received only on the condition that the Club shall not be responsible for any loss or damage to exhibits, boxes or baskets, or in any other way.

Any exhibitor whose exhibit has been rejected or withdrawn on veterinary grounds from any G.C.C.F. Show should produce a veterinary surgeon's clearance certificate stating that the cat(s) in question had recovered by a specific date and/or that there were no further outbreaks in the cattery. **WHERE AN EXHIBIT HAS BEEN REJECTED OR DISQUALIFIED BY A VETERINARY SURGEON, THE SHOW MANAGER SHALL OBTAIN FROM THE VETERINARY SURGEON THE REASONS THEREFOR AND SHALL SEND THEM TO THE SECRETARY OF THE G.C.C.F. WITHIN 48 HOURS OF THE SHOW. A COPY IS ALSO TO BE SENT TO THE EXHIBITOR.**

THE G.C.C.F. strongly recommends that Cats or Kittens bought at Shows should only be taken away in proper containers, but intending purchasers are warned about the possibility of infection when taking a kitten straight from a Show.

Judges may be changed during the course of a Show, in an emergency, with the consent of the Show Manager.

Exhibits nominated for Best in Show may be withheld from taking part if the owner wishes.

Warning: Breeders and owners are hereby warned by the Governing Council of the Cat Fancy against the danger of selling **whole litters to one buyer**, as unfortunate consequences may follow.

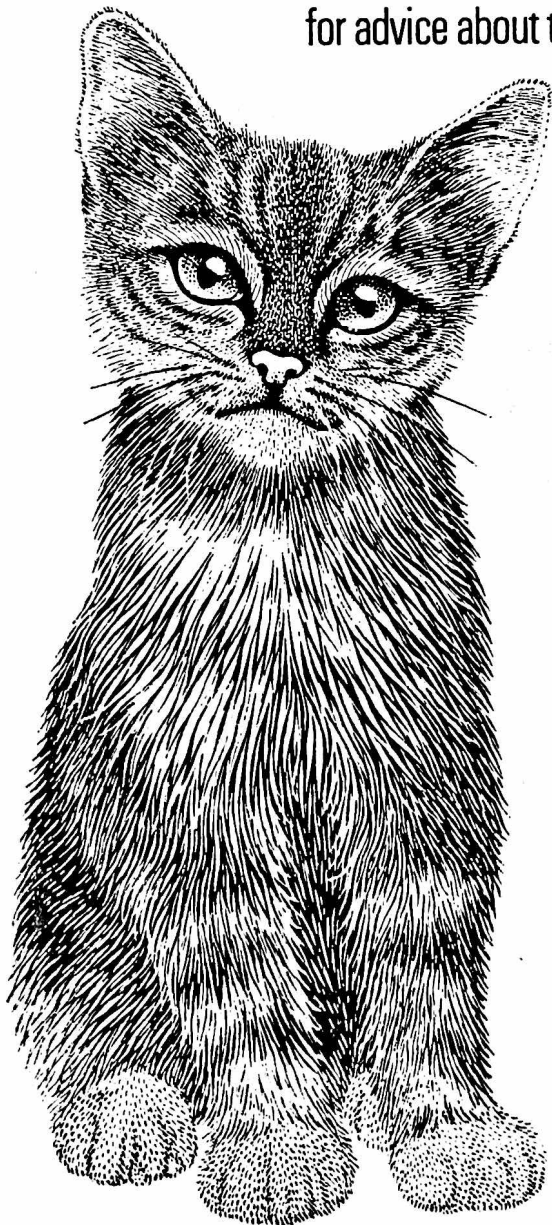

It's a dog's life

Many people vaccinate their dogs but relatively few remember to protect their cats.

Granted, nine is a lot of lives, but even a cat can't protect itself against feline infectious enteritis.

It really is a killer (and kittens are especially vulnerable).

Yet FIOVAX TC vaccine will give your cat or kitten the protection she deserves. So ask your veterinary surgeon for advice about this simple procedure.

JAPAN ANIMAL WELFARE SOCIETY LTD.

NOTES ON CATS IN JAPAN FROM A FIELD-WORKER

PURE BRED CATS are still a comparative rarity in Japan, the most popular for breeding and showing being imported Blues, Creams and Chinchillas. The exception is the Seal-Point Siamese, now numerically very strong, and the most common variety of pure bred to be seen in the research laboratories.

Because of the great cleanliness in Japanese homes, where social life and meals are conducted at floor level, it is understandable that animals are considered dirty creatures, and that therefore pure bred cats are kept very strictly in cages for their entire lives.

The acute land shortage in Japan means there are very few gardens, and what small ones there are are carefully planned to please the eye and are not to be walked on, and definitely not to be spoilt by the erection of cat pens for exercise, fresh air and sunning.

To avoid the dire responsibility of taking life, old, ill or unwanted cats will be given away if possible, or abandoned in the streets or in remote areas to die according to their fate. Thus abandoned they become prey to the dog catchers, or to the cat catchers for musical instrument skins, both of whom sell them in large numbers for research.

"PET CATS" . . . so called, are deemed little more than rat and mouse catchers, and there is no tradition of them being kept as house pets, the cat being commonly regarded as an evil and treacherous creature. They are never allowed in the house, and like the dogs, live outside in all weathers, and are fed on zampan and left-overs—rice, pickled vegetables, fish skins and bones, etc.

RESEARCH. The main use of cats is for brain surgery, and neither pre- nor post-operative care is given. Handling or exercise is not considered necessary, and cats are merely removed from their cages for surgery, and put back afterwards. Most post-operative cats refuse to eat, and it is quite usual for many to die within 10-14 days. Infected wounds are common, and whole rooms of pre- and post-operative cats (unsegregated) are decimated by respiratory and virus infections.

The first comprehensive ANIMAL PROTECTION BILL was passed in Japan on September 26th, 1973, and will become LAW in March, 1974. The working provisions of this Bill have still to be defined, and until it is finally implemented, there will be little change from the norm for all animals, and as in this country 150 years ago, it will take time for a national concept of humane treatment to formulate.

JAWS ACKNOWLEDGES their great indebtedness to the many British people whose donations, help and understanding over the last 18 years have made it possible for animal rescue and care to continue. The Society forsees a far greater call on its resources after next March, and begs that even more vital support may be forthcoming to help build up reserves to meet them.

Please help us to help more animals

Today we are celebrating the arrival, ten years ago, of our first Siamese.

To all the many friends we have made during these first novice years, we say "Good luck" and "Thank you" for making this hobby so interesting.

Best wishes to all past and present owners of our happy cats and kits.

Our "Dream Boats" on our anniversary day are
