and glossy coat.

Care for your cats and kittens the natural way. For breeding and rearing sturdy litters make Kitzyne part of the daily routine.

It's a dog's life

Many people vaccinate their dogs but relatively few remember to protect their cats.

Granted, nine is a lot of lives, but even a cat can't protect itself against feline infectious enteritis.

It really is a killer (and kittens are especially vulnerable).

Yet FIOVAX TC vaccine will give your cat or kitten the protection she deserves. So ask your veterinary surgeon for advice about this simple procedure.

INOCULATION AGAINST FELINE INFECTIOUS ENTERITIS. It is recommended that all animals should be inoculated.

TRANSFERS. All registered cats which have changed ownership since registration must be transferred at least three weeks before the show.

WARNING. Breeders and owners are warned against selling whole litters to one buyer as unfortunate consequences may follow.

The Committee will look sympathetically on requests for the return of part of the entry fee in cases of illness or other unavoidable cause of absence from the show. IF AN EXHIBIT is unable to be shown owing to illness, 50% of entry fee will be returned on receipt of a veterinary surgeon's certificate, not less than 7 days prior to date of the show.

Este gatito se habria muerto de hambre

(This kitten would have starved to death)

This hungry kitten cried and clawed in vain trying to get out of a locked house while its master was on holiday. After eight days it was released and looked after by the R S P C A. Since the Abandonment of Animals Act was introduced The Society has rescued thousands of animals from this kind of thoughtless cruelty. To carry out its work of care and protection, the R S P C A relies entirely on the financial support of people like yourself. Please give as much as you can to help us carry on.

OBSERVER'S BOOK OF CATS

GRACE POND

Though the history of the domestic cat goes back at least to the time of the ancient Egyptians, it is only comparatively recently that scientific breeding has been undertaken to produce the many beautiful varieties seen on the show bench today. All the recognised breeds and varieties are described and illustrated in this book. Owners of the humble "household pet," as well as of pedigree animals, will find useful advice on care and breeding, and from her experience as a judge at many cat shows the author gives valuable hints on preparing a cat for show. A list is also given of the main Cat Clubs and Societies in Britain, the Commonwealth and the U.S.A. Fully illustrated in colour and black and white,

URGENT!

Dog and Cat owners

Pets are punished by their owners who, unbelievably, do NOT first inspect the boarding quarters before departing on holiday. Pets are protected by "The Protection of Animals Act, 1911 and Animal Boarding Establishments Act 1963."

LAWFULLY they must have: Suitably sized accommodation, exercising facilities, suitable temperature, lighting, ventilation and cleanliness. Be supplied with food, DRINK, bedding and be exercised and visited. Be provided with isolation facilities and be protected against fire. Be inspected by the local authority.

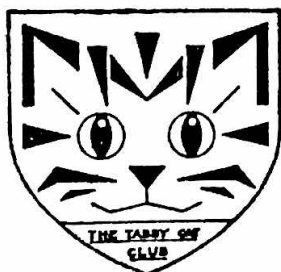

If it was necessary for this law to be made

why condone anything less?

To be "suitable," kennels should be lined and each have individual runs. Catteries (minimal size 4 ft. square) should be lined and with outdoor runs with tree branch for claw cleaning and exercising, have growing grass to eat and sanitrays which should be changed daily.

Have their rights, too
