It's a dog's life

Many people vaccinate their dogs but relatively few remember to protect their cats.
Granted, nine is a lot of lives, but even a cat can't protect itself against feline infectious enteritis.
It really is a killer (and kittens are especially vulnerable).
Yet FIOVAX TC vaccine will give your cat or kitten the protection she deserves. So ask your veterinary surgeon for advice about this simple procedure.

This Exhibition is held under the rules of the Governing Council of the Cat Fancy. Copies of these rules, and the Show Rules and Regulations, published in the Show Schedule, are available on request from the Show Manager.

The attention of all concerned is drawn to the fact that the Lancashire Cat Club is, in principle, opposed to young kittens changing hands at shows. It is realised, however, that circumstances may, in exceptional cases, modify this view. It may be kinder to the kitten concerned to accompany its new owner—should a long journey be involved—rather than to travel unaccompanied at a later date.

No objection is raised to arrangements for sale being made at the Show, but intending purchasers are warned about the possibility of infection when taking a kitten straight from a Show.

Dying is a hell of a way to start life.

Life is precious. For any living creature.

But every year thousands of cats in this country are condemned to death, simply for being born.

There is a humane alternative.

The RSPCA strongly recommends neutering or spaying of cats as a means of reducing the number of unwanted litters. Your local vet or RSPCA clinic will advise you.

Ideally, we'd like to give more young cats the chance to live. But that costs money. And so does all our work for all kinds of animals.

We receive no State Aid. So we need all the help we can get.

If you can, please send a donation.

A PLEA TO VISITORS TO THE SHOW

The Show Committee has done everything in its power to ensure that no feline infection is present at the Show today. The surest way of passing on infection—even though it may not be obvious—is by touch.

Visitors are therefore specially asked NOT TO TOUCH THE CATS.

It is a natural reaction for children to put their fingers through the wire of the cage—PLEASE DO NOT let them do this.

PLEASE HELP US TO CUT DOWN THE RISK—DO NOT TOUCH.
