# BEAUDELL SIAMESE

ARE BACK IN THE HECTIC WHIRL AGAIN!

THANKS TO THE VERY BEAUTIFUL

## SUKILEE PERRI, 24a

who in her short career to date has won 13 1st prizes, 2 B.O.B., 2 N. B.I.S. and placed in every class entered. Today, she is at home, hopefully in kitten, but we are represented by her neutered brother

## SUKILEE PIETRO, 24a

who lives at the "Mad House" by the very kind agreement of his owner Mrs. I. C. North. Pietro's show career has been equally as sparkling as his sister's. Prizes, too numerous to mention, include 1st Open at his first adult show (with 6 cats present). All paws crossed for a 'repeat' today.

---

Sincerest thanks to Mrs. Baker and Mrs. North for these two blue beauties — hopefully the first of many.

# Original protector

Before C-Vet introduced Feliflu vaccine there was no vaccine available in the U.K. to protect cats against feline viral rhinotracheitis, calicivirus and feline panleucopaenia.

Feliflu was the first vaccine proven to have a full 12 months of protection from challenge for all components. Only Feliflu contains the F-9 strain of calicivirus which cross protects against all strains of calicivirus.

No other vaccine offers as much protection, as much clinical proof of performance or as many years of proven efficacy and safety as Feliflu... the original protector.

# Leukassay F

**A testing system for  
the fast identification of  
FeLV-infected cats**

Feline Leukaemia  
Virus (FeLV) is  
commonly associated  
with many diseases of  
cats. It is not only a  
cause of lymphosarcoma  
but may induce a  
'fading kitten' syndrome,  
blood disorders or  
reproductive failures.

Periodic testing by your  
veterinary surgeon using  
the Leukassay F testing  
system can help identify  
infected cats.
