Every effort will be made at this Show to minimise the spread of disease. Exhibitors are particularly requested to co-operate and during the Show to assist, by ensuring that the public do not touch the Exhibits.

A PLEA TO ALL OUR VISITORS—One of the surest ways of passing on infection, even though it may not be obvious, is by touch. We especially ask you **NOT TO TOUCH THE CATS**. It is a natural reaction for children to put their fingers through the wire of the cages. **PLEASE DO NOT LET THEM DO THIS.**

BOARDING CATTERIES

The Suffolk and Norfolk Cat Club Advisory Service is frequently asked for advice on Boarding Catteries. The Committee, therefore, considered it would be helpful to list some points to be looked for when considering boarding your cats.

1. Always visit any Cattery before booking in—any establishment not welcoming inspection should be viewed with suspicion.
2. There should be **NO** contact possible between cats from different homes.
3. Heating, preferably by infra-red, should be provided.
4. Accommodation, both inside and out, should be roomy and spotlessly clean.
5. All litter trays should be kept inside the cat chalets (accommodation).
6. Cats should not have access to outside runs during the night.
7. Runs should be of smooth concrete with either double doors or an escape run for maximum security.
8. Cats from different homes should never, under any circumstances, share accommodation.
9. The Cattery should insist on inoculation against Feline Infectious Enteritis. Your Veterinary Surgeon will advise you as to the desirability of Anti-Flu Vaccine.

WELCOME . . .

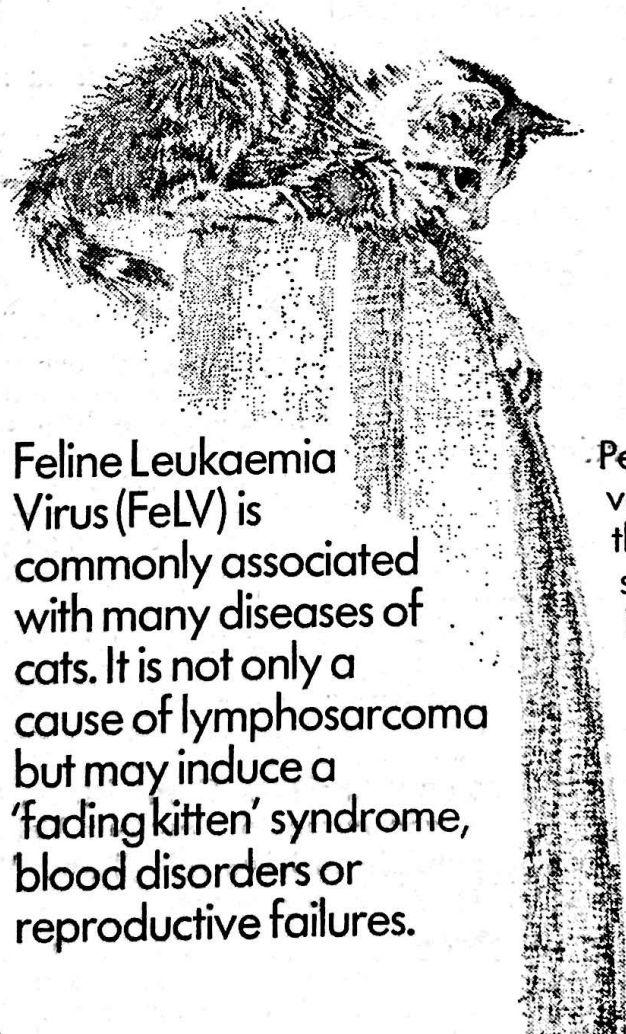

The Show Manager, his Assistants, and the Show Committee welcome all our Exhibitors and the Public who come to view our Feline friends. Without you it would not be possible to have this Show. We hope you will enjoy yourselves and a safe journey home.

OUR NEXT SHOW WILL BE NORWICH, MARCH 1982.

Leukassay F

**A testing system for
the fast identification of
FeLV-infected cats**

Feline Leukaemia Virus (FeLV) is commonly associated with many diseases of cats. It is not only a cause of lymphosarcoma but may induce a 'fading kitten' syndrome, blood disorders or reproductive failures.

Periodic testing by your veterinary surgeon using the Leukassay F testing system can help identify infected cats.

SHOW RULES AND REGULATIONS

The Exhibition is held under the Rules of the Governing Council of the Cat Fancy and is open to all. A copy of these rules accompanies this schedule, and must be read by all, for they are NOT repeated herein, but will be strictly applied. Ignorance of any rule will not be accepted as excuse of their breach.

1. Registration

All Cats, Kittens and Neuters are eligible for this Show if registered with the G.C.C.F. Unregistered Cats, Kittens and Neuters may only enter classes in the Non-Pedigree Section. To be effective for entry all registrations and/or transfers must have reached the Receptor, Mr. R. Loveys, 28 Brendon Road, Watchet, Somerset TA23 0AX, three weeks before the date of the Show. No Cat or Kitten, entire or neutered born after 19.10.71 with one or both parents and grand-parents unregistered shall be eligible for Open Classes. If registration numbers are not to hand when completing the entry form write N.A.F. (number applied for) in the appropriate column, and forward number, when received, to the Show Manager.

2. Show Entry

In order to exhibit at the Show, the exhibitor must complete the official entry form, and subscribe to the declaration therein. Every exhibit must be identified on the official form exactly as recorded on the registration/transfer certificate relating to it. Exhibitors are responsible for the correct description of their exhibits and for entering them in the correct classes.

No Cat or Kitten from the same household or cattery may be exhibited at any show or public exhibition within 14 days prior to, or following the date of this Show. Exhibits domiciled elsewhere are also controlled under this rule and such domicile must be declared to the Show Manager.

Exhibits must be entered into the appropriate Open Class and at least three other classes, except Breeds 13a, 26 and 32x, which may only be entered into Assessment Classes.

The Show is in four separate sections. ENTRIES CLOSE 7th FEBRUARY and must arrive at the appropriate Assistant Show Manager on or before that date.

3. Veterinary

Exhibits will be received at the entrance of the Show Hall from 7.45 a.m. until 9.45 a.m. on the morning of the Show. All exhibits must be brought to the Show in baskets or suitable containers and must be accompanied by its owner or representative. No exhibit will be accepted on a lead only. Each exhibit will be examined by the Club's Honorary Veterinary Surgeons. No exhibit may be penned before being so examined. The Veterinary Surgeons are authorised to exclude any exhibit they consider unfit, this includes exhibits showing skin lesions.

Exhibits must have clean ears and coats free from pests. No queen may be exhibited within two calendar months from the date of kitting. No exhibit that has been de-clawed will be accepted, neither will male Cats which are either monorchids or cryptorchids.

Unfit exhibits must be removed by their owners and entry fees forfeited. If in the Veterinary Surgeon's opinion it is desirable, all other exhibits from the same cattery, and the owners thereof, shall be debarred from attending the Show. The Veterinary Surgeon's decision is final. Where an exhibit has been rejected or withdrawn from the show by a Veterinary Surgeon, it shall not be re-presented to a second Veterinary Surgeon. The procedure to be adopted in such cases is clearly stated in G.C.C.F. rules. Any exhibit found suffering from the effects of drugs on entry or at any time during the Show will be subject to expulsion from the Show on the authority of the Veterinary Surgeon.

4. Presentation of Exhibits

Take a pride in presenting your exhibit, be sure it is comfortable, warm and relaxed. Exhibitors must provide each exhibit with food, sanitary pan and drinking bowl, all articles must be white. Every exhibit must have a CLEAN, warm white blanket of reasonable size to lie on. Hot water bottles may be used, provided they

There's no substitute

That's why Katlit is the top-selling cat litter, made in Britain so its consistent high quality is assured. Cats go naturally to Katlit and owners prefer it because it is

- Neutral in colour so does not stain floors, carpets or your cat's fur.
- Natural, clean, highly absorbent granules. Non-toxic and allergy free.
- Completely odourless itself, it also absorbs odours and keeps the house sweet.
- Permanently hygienic; soiled areas form clumps which can be removed easily with a trowel and flushed away, leaving the remaining Katlit fresh and clean. This also makes Katlit very economical.
- It is heavy, so there is less bulk to carry, less volume to dispose of - and it does not scatter or tread out of the tray.
- It comes in easy-carry bags of 3, 6 and 12 kilos and the popular 1½ kilos cartons.
