PURTECT **Protects**

You can protect your cat against the three unpleasant and sometimes fatal diseases: feline viral rhinotracheitis and calicivirus disease (the major causes of cat flu) and feline panleucopaenia (infectious enteritis).

There is a British vaccine which gives combined protection –

PurTECT – a simple painfree injection. So, for cats of all ages avoid the worry and distress that these diseases can cause and make sure they receive the best of British protection. Ask your veterinary surgeon about PurTECT, now.

PurTECT

(trade mark)

Great British protection against the major feline diseases.

An informative leaflet on vaccination and cat care is available from your veterinary surgeon or from Glaxovet Limited, FREEPOST, Harefield, Uxbridge, Middlesex UB9 6BR

**In a world of starving millions, battered babies
and wars, why should you care about
5 million experiments
on live animals ?**

Because man's inhumanity to man has many different well-springs. One of them is a cynical indifference to animal suffering which, if we're a party to it, brutalises all of us. In this country we are a party—all of us—to 5 million painful experiments on animals a year. But there are alternatives—some already successfully used. We're for progress—but not at the price of human regression. We ask that the Government now makes a real effort to look at the alternatives. Join us in this reasonable campaign. It is important for humanity.

I enclose a contribution of £..... to support you in your aims to press for alternatives to the exploitation of live animals in research. I agree with your aims to promote such alternatives.
