**NEW SPECIAL CARE** for your cat's special needs. **SPECIAL CARE** is a completely new cat food in *liquid* form, which is easily digested and very palatable. Being highly acceptable it is therefore especially suitable for:—

★★ The weaning kitten, as its first non-milk food, during the transition to solid food. Introduce Special Care at the level of half a can per day at 4-6 weeks old while decreasing the amount of mother's milk or milk replacer. Continue using at this level while gradually introducing solid foods until 12 weeks.

★★ The pregnant or nursing cat. To give the necessary extra nutrition, pregnant cats can be offered half a can per day, and nursing cats fed to appetite.

★★ The older cat, no longer able to handle solid foods as easily. Feed up to one can per day and reduce quantity of other foods.

★★ For cats with finicky appetites or who are off their food. Cats can be very fussy animals, and Special Care gives them the variety in texture and taste to tempt them to eat. Special Care's smooth, lump free, texture makes it suitable for syringe feeding in cases of emergency. For cats that do not drink a great deal, Special Care gives them the liquid intake they need.

Special Care comes in a handy two-serving can (185g) with full vitamin supplementation. It is made **ONLY** from chicken, beef, liver, eggs and skimmed milk — no cereals and no soya — to ensure maximum palatability in feeding situations where high acceptance is important.

Special Care is being awarded as prizes at today's show, and is on sale at the **LADYMEAD** stand. Special Care is available throughout Norfolk and parts of Suffolk, from Jem Pet Supplies of South Raynham, (032-874-245), Buxton distributors (060-546 611) and Repnor of Acle (0493-750020), either directly or from their retail customers. In Essex, and parts of Suffolk Felcan of W Hanningfield, near Chelmsford (0245-400458), Romadorns of Tiptree (0621 - 815956), Colchester Animal Feed Centre (0206 42025) and Ladymead of Little Clacton (0255-861886) all stock the product.
