## The natural indoor garden for your cat

In an ideal world, every cat would prefer to do what comes naturally in the natural outdoors.

Unfortunately, that's not always possible so the next best thing is to bring the outdoors, indoors.

That's where Fullers Earth comes in. Because Fullers Earth is natural, just the way cats like it.

And you'll like it too, as Fullers Earth absorbs instantly and totally neutralises "after visit" odours, without the help of artificial deodorants. All of which, makes it cleaner and

more hygienic. Especially helpful if your cat lives indoors with you.

You'll also find Fullers Earth more economical: because it traps liquids in a dry, solid 'clump'. You simply scoop it out and top it up!

So a 6 kilo bag should last your cat a month. Add the fact that Fullers Earth is dust controlled and you can see why it's the natural choice.

Or the perfect indoor garden for your cat
