## SHOW RULES AND REGULATIONS

The Show is held under the Rules of the G.C.C.F. and is Open to all. A copy of the Rules may be obtained from G.C.C.F. 46 Penel Orliou, Bridgwater, Somerset TA6 3PG. Price £1. Ignorance will not be accepted as an excuse for a breach of Rules.

Each Exhibit will be examined on arrival by the Club's Veterinary Surgeons, who will be in attendance. Cats which in their opinion are unfit will be returned to their owners, and the Entry Fees forfeited. No exhibit is to be penned before being examined by the Club's Veterinary Surgeons; any Exhibitor so doing will be disqualified from competition and all fees paid forfeited. This rule must be strictly enforced.

Exhibitors must provide their own food, sanitary pans, litter and drinking bowls. TALLIES will be given out on the day of the Show and must be hung round the neck of each Exhibit by means of white ribbon or tape.

The Governing Council of the Cat Fancy rules that a Cat or Kitten cannot be exhibited twice within a period of 14 days, nor can any other Cat or Kitten from the same household.

Exhibits actually received at the Show Hall cannot be withdrawn from competition without the Show Manager's sanction.

Prizes will be paid from the Judges' award slips.

No interior or exterior decorations or distinguishing objects will be allowed in or on the pens during the judging under any circumstances whatever, (except for decorated pens). It is an instruction to the Judges to pass any pens so distinguished. White blankets WITHOUT MARKINGS (no lacy or cellular blankets allowed), and sanitary trays must be provided by the Exhibitor. The use of polystyrene filled cushions instead of white blankets is forbidden, since such cushions do not comply with the GCCF Show Rules. The Show Manager will order the removal of any such cushions found in pens.

## ALL EXHIBITS MUST BE INOCULATED AGAINST FELINE INFECTIOUS ENTERITIS.

The Committee, on behalf of the Club, retain their exclusive right to publish Catalogues of their Shows, containing information as to exhibits and names and addresses of Exhibitors and reserve to themselves the right to refuse entry without giving a reason.

Early Removal. No early removals. Failure to observe this rule will result in forfeiture of prize money.

## VETERINARY CLEARANCE CERTIFICATES

Exhibits whose cats have been rejected at shows please note the following points:

1. When sending your certificate to the GCCF Veterinary Officer, please include your copy of rejection slip.
2. Please DO NOT send certificates by recorded delivery. This can cause considerable delay in receipt. If you wish to satisfy yourself that your letter has reached the Veterinary Officer, please enclose a stamped addressed postcard for signature acknowledging receipt.
3. Exhibitors should not attend shows until they have received a letter from the Veterinary Officer confirming clearance. It is recommended that this letter be taken to all shows attended within a month of issue.

## Veterinary Letters (A mended Notice)

In the past, cats showing signs of skin lesions might have been allowed entry to a show on production of a letter from their Veterinary Surgeon, stating the origin of the lesions. This was subject to the agreement of the Duty Vet. THIS IS NO LONGER APPLICABLE: such letters are no longer accepted at shows, and any exhibitor presenting a cat with any skin lesions indicative of ringworm is likely to be rejected at Vetting-in. The G.C.C.F. Veterinary recommends exhibitors not to take a cat to a show if it has any skin lesions, however small.

**THE GOVERNING COUNCIL OF THE CAT  
FANCY NEW SHOW RULES FROM 1ST  
JUNE 1976**

1. No Kitten shall be exhibited under the age of three calendar months. This applies to litters for Exhibition also.

2a. Any Cat or Kitten which in the opinion of the judge is very under-developed or in poor condition shall be disqualified from competition.

2b. Any Cat or Kitten disqualified by a judge on ground of condition must be reported by the Show Manager to the Honorary Secretary of the G.C.C.F.

**3 NEW RULE ON BITING AT SHOWS  
(EFFECTIVE 1.6.88)**

Any cat biting a Judge, Veterinary Surgeon, Steward or other Show Official must be reported to the Show Manager. The Show Manager must withdraw the cat from the show and shall inform the owner of the cat in writing, sending a copy to the Secretary of the G.C.C.F. If the cat was defending itself in exceptional and frightening circumstances, that information should be given to the Secretary of the G.C.C.F. for consideration by the Executive Committee. If the cat is reported at any subsequent show, it shall be disqualified from all future shows unless the Executive Committee rule otherwise.

**NEW SHOW RULE FROM 1ST JUNE 1987**

All Household Pets aged 9 months or over exhibited at shows held under G.C.C.F. licence must be neutered.

(This rule was passed at the G.C.C.F. meeting held 29.4.87.)

**REMINDER** that the following is still in force: Cats with unregistered parents but which are themselves registered (on June 1st 1971) and which were eligible for Challenge Certificates on that date, shall continue to be so and so shall their suitable progeny for three generations from October 20th, 1971. **THEREAFTER** only Cats with registered parents, grandparents and great-grandparents shall be eligible.

## MEMORANDA

**Warning.** Breeders and owners are hereby warned by the GCCF and the Officials of the TCC against the danger of selling whole litters to one buyer as unfortunate circumstances may follow.

**Special Prizes.** It will be noticed that all Club Specials are confined to fully paid up Members.

The Committee will be most anxious for the care and safety of the exhibits and exhibitors, but it must be distinctly understood by exhibitors and all other persons that the committee will not be responsible for the loss, detention of, or damage to any cats, exhibitors or other property, whether arising from accident, or any other causes whatsoever, or from any act of omission of themselves, their officers, agents, servants or others.

Exhibitors are responsible for ensuring that no sharpened wires are left protruding into the cages and that any gaps affording escape to exhibits be closed before leaving the hall. Tie wires for this purpose may be obtained from the Show Managers.

Attention of exhibitors is drawn to the fact that hospital pens are provided by the committee for the housing of exhibits found to be unwell during the show.

Exhibitors with exhibits rejected by the Veterinary Surgeon at vetting-in **MAY** at the Show Managers discretion and with the consent of the Veterinary Surgeon use some of these pens for the holding of their cats during the day.

It is pointed out that whilst TTCC and Show Committee have great sympathy

with exhibitors whose exhibits are so unfortunate as to be rejected or taken ill during the show, they can accept NO responsibility for any disease or illness contracted or claiming to be contracted during the stay of the exhibits in these pens.

All cats and kittens are examined by the Veterinary Surgeon before admission to the show. The TCC cannot hold themselves responsible for cats and kittens bought at the show.

No stud advertisement or written or printed matter of any kind other than the official award cards may be put on pens. Only rosettes awarded by TTCC may be displayed. Exhibition pens are excluded from this ruling.

Coloured hot water bottles must be placed in white covers. No other heating appliance may be used. Food and milk must be removed from the pens and a water container must be placed in the pen towards the rear before judging. These may be replaced after 12.30

Judges are empowered to withhold any prize in any class if exhibits do not in their opinion possess sufficient merit.

All complaints must be made in writing within 7 days to the Show Manager. All correspondence must be accompanied by a Stamped Addressed Envelope if a reply is required.

The right to cancel or amalgamate classes is reserved.

# FELIFLU®

*Passes the Test of Time*

## VACCINE SAFETY\*

- i) Studies conducted during the development of Feliflu showed that susceptible (antibody negative) cats held in contact with vaccinated cats for a period of one year did not develop antibodies thus demonstrating the lack of spread of the vaccine viruses used in Feliflu. Absence of vaccine virus shedding eliminates the danger that vaccine virus might revert to virulence.  
Feliflu can therefore be used safely in colonies free from wild calici and herpes viruses.
- ii) Feliflu is administered as an aqueous vaccine and thus causes little or no local reaction.

## VACCINE EFFICACY\*

- i) During the development of Feliflu 129 cats were vaccinated with Feliflu (FVR-C). One month later 78 of these cats were challenged with virulent herpes virus intranasally; 77 were protected from serious disease ie. 98% protection. The remaining 51 cats were challenged with virulent calici virus intranasally; 49 were protected from serious disease ie. 96% protection.
- ii) Cats challenged with high doses of virulent calici and herpes viruses *12 months* after primary vaccinations were shown to be protected.

FELIFLU contains the F2 strain of herpes virus known for its superior immunogenicity. FELIFLU contains the F-9 strain of calici virus, the recognised World Health Organisation reference strain, which provides cross-protection against all calici virus strains.
