GCCF SUPREME SHOW

SATURDAY 18th NOVEMBER, 1995 at the NEC BIRMINGHAM

Rules and Regulations

This show is held under licence from the Governing Council of the Cat Fancy and as such is subject to its rules and regulations. The onus is on the exhibitors to make themselves aware of these rules and ignorance of them is not considered a reasonable excuse. A copy of these Rules is obtainable from the GCCF Office, 4-6 Penel Orliu, Bridgwater, Somerset. TA6 3PG, Price £1.50

COUNTERSIGNING OF CERTIFICATES

In the event of a change of judge of an Open Class occurring after the closing date of the Show, and provided that the exhibitor informs the Show Manager prior to judging that a Certificate has previously been awarded by the replacement judge, the Show Manager shall appoint one other judge who shall judge the cat and if the cat is considered worthy, countersign the certificate which shall then count towards championship status.

ADVICE TO EXHIBITORS

- a) You are advised against purchasing any shampoos that change a cat's colour as this can lead to disqualification.
- b) Homeopathic Vaccinations are not acceptable to the GCCF for the purpose of vetting-in.
- c) Any alteration to your entry form must be in writing which will be attached to the form by the show manager. You may also make corrections to the form up to the close of the show.
- d) Kittens under the age of fourteen weeks (14) may not now be shown.
- e) Any person whose cats have been rejected under Sections C or D must not officiate as a judge or steward or in any other capacity which requires the handling of cats at shows until a clearance certificate as required by the GCCF has been obtained.
- f) The use of small battery driven fans in pens can be dangerous, and could also be considered a distinguishing mark.
- g) Please note that in addition to the classes you have entered, your cat may also be handled for the purposes of assessing candidates in the GCCF appointment scheme
- h) Queens who have kitted within 12 weeks of the date of the show may not be shown.

Ringworm research project

THE SKIN DISEASE resulting from ringworm infection is often mild and localised; in some cats it can become severe and/or generalised at times involving secondary bacterial infections and causing considerable distress to the cat. Some of these infections prove very prolonged and can be extremely difficult to cure.

THE RISK OF SPREAD OF INFECTION TO MAN is of considerable importance as the disease, particularly in children, can be very severe. Concerns over the risk of infecting children may result in the euthanasia of cats in some households.

CATS WITH RINGWORM SUFFER from the loneliness of prolonged isolation, the unpleasantness of long periods of medication and the discomfort of shaving and bathing, which is often necessary.
