THE GOVERNING COUNCIL
 OF THE CAT FANCY
 4-6 PENEL ORLIEU
 BRIDGWATER
 SOMERSET TA6 3PG

Tel 01278 427575

Exhibitors:- If your cat has won a champion or premier title here today please make your claim to the GCCF office. You should include the cat's name, Breed Number, Sex, Breeder's name, Owner's name and address and the names and dates of the three shows together with the awarding Judges' names. All claims are acknowledged. Periodically a list of Champions etc. is published in CATS and shortly after medals are sent from the office to Owners. A Show Season runs from June to May.

Applying for a Prefix:- Breeding Prefixes cost £50 and applicants must be a member of a GCCF affiliated cat club at the time of application. Forms are available from the office.

Registrations and Transfers:- Forms for registration and transfer are available from the office.

Certificate of Entirety:- All male cats that are used at stud for the first time must have a Certificate of Entirety deposited with the GCCF, prior to the registration of their first litter of kittens. Established stud cats must have their certificate deposited by 31 December 1996. Official GCCF Certificates of Entirety are now available from the office on receipt of a large stamped addressed envelope together with the registered number and name of the cat. No fee is charged by the GCCF for the certificate and once it has been signed by your veterinary surgeon it should be returned to the GCCF office. Owners are recommended to make a photo copy so that they can show it to the owners of queens using their cat at stud.

Publications:- Price lists and address lists of Club Secretaries are available on receipt of a SAE. The following are obtainable by post from the office -

The Cat Welfare Trust
4-4 Peel Ordeu, Bridgwater TA6 3PG
Registered Charity No. 800719

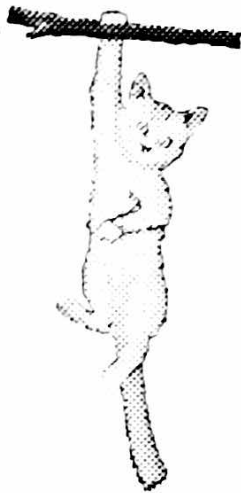

ringworm research project

THE SKIN DISEASE resulting from ringworm infection is often mild and localised; in some cats it can become severe and/or generalised at times involving secondary bacterial infections and causing considerable distress to the cat. Some of these infections prove very prolonged and can be extremely difficult to cure.

THE RISK OF SPREAD OF INFECTION TO MAN is of considerable importance as the disease, particularly in children, can be very severe. Concerns over the risk of infecting children may result in the euthanasia of cats in some households.

CATS WITH RINGWORM SUFFER from the loneliness of prolonged isolation, the unpleasantness of long periods of medication and the discomfort of shaving and bathing, which is often necessary.
