Welcome to the Show.....

Would visitors please note the following:

Though it is very tempting to touch the cats, it is the easiest way of passing infection, so please keep fingers out of the pens.

Please do not crowd round the judges while they are judging

and

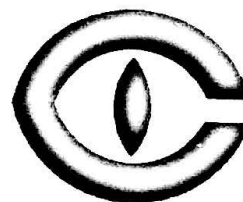

Please keep young people under control and stop them running round the hall.

Exhibitors:- If your cat has won a champion or premier title here today please make your claim to the GCCF office. You should include the cat's name, Breed Number, Sex, Breeder's name, Owner's name and address and the names and dates of the three shows together with the awarding Judges' names. All claims are acknowledged. Periodically a list of Champions etc. is published in CATS and shortly after medals are sent from the office to Owners. A Show Season runs from June to May.

Applying for a Prefix:- Breeding Prefixes cost £50 and applicants must be a member of a GCCF affiliated cat club at the time of application. Forms are available from the office.

Registrations and Transfers:- Forms for registration and transfer are available from the office.

Certificate of Entirety:- All male cats that are used at stud for the first time must have a Certificate of Entirety deposited with the GCCF, prior to the registration of their first litter of kittens. Established stud cats must have their certificate deposited by 31 December 1996. Official GCCF Certificates of Entirety are now available from the office on receipt of a large stamped addressed envelope together with the registered number and name of the cat. COUNTERSIGNING OF CERTIFICATES

In the event of a change of judge of an Open Class occurring after the closing date of the Show, and provided that the exhibitor informs the Show Manager prior to judging that a Certificate has previously been awarded by the replacement judge, the Show Manager shall appoint one other judge who shall judge the cat and if the cat is considered worthy, countersign the certificate which shall then count towards championship status.

ringworm research
project

HELP ERADICATE RINGWORM

Support the CWT project to produce a vaccine

- THE CAT WELFARE TRUST is delighted to announce the appointment of Mrs Ann Robinson who has started research for the project at Langford House, Bristol University.
- THE SKIN DISEASE resulting from ringworm infection is often mild and localised; in some cats it can become severe and/or generalised at times involving secondary bacterial infections and causing considerable distress to the cat. Some of these infections prove very prolonged and can be extremely difficult to cure.
- THE RISK OF SPREAD OF INFECTION TO MAN is of considerable importance as the disease, particularly in children, can be very severe. Concerns over the risk of infecting children may result in the euthanasia of cats in some households.
