GCCF SUPREME SHOW

NEC Birmingham on Saturday 22nd November 1997

SHOW RULES, PROCEDURES AND REGULATIONS

The Show is held under the Rules of the Governing Council of the Cat Fancy and is open to all. A copy of these rules is obtainable from the GCCF Office, 4-6 Penel Orliou, Bridgwater, Somerset TA6 3PG, price £1.50, and must be read by all for they are not repeated herein, but will be strictly applied. Ignorance of any rule will not be accepted as excuse of its breach.

Tallies must be hung on a white ribbon, tape or elastic around the neck of each exhibit and must not be removed before Best in Show judging.

The owner or representative must be within call throughout the period of the Show except for those times when the hall is cleared for judging. ALL cats must be removed from their pens prior to dismantling but must NOT be removed during the period of the Show without the explicit permission of the Show Manager.

Exhibits are only received on condition that the Association shall not be held responsible for any loss or damage to exhibits, boxes, baskets or in any other way.

No one may remove or interfere with any exhibit except the owner or an Association official. No cats are to be handled in such a way as to cause annoyance to other exhibits.

All correspondence must be accompanied by a stamped, addressed envelope if a reply is desired. Any complaint relating to the Show must be forwarded to the Show Manager in writing within seven days of the Show.

All prize money must be claimed within seven days of the Show, from the Show Manager.

CHAMPIONS, PREMIERS, GRAND CHAMPIONS & GRAND PREMIERS

Seal-Point Siamese Cat Club

This club has been organised to protect the interests
of the Seal-Point Siamese Cat

There are very few pure seal-point strains left,
and an effort is being made to encourage
the pure seal colour breeding of
the beautiful Royal Cat of Siam.

We shall be pleased to check pedigrees from the
records and advise on any breeding problems.

ringworm research project

HELP ERADICATE RINGWORM

Support the CWT project to produce a vaccine

- THE CAT WELFARE TRUST is delighted to announce the appointment of Mrs Ann Robinson who has started research for the project at Langford House, Bristol University.
- THE SKIN DISEASE resulting from ringworm infection is often mild and localised; in some cats it can become severe and/or generalised at times involving secondary bacterial infections and causing considerable distress to the cat. Some of these infections prove very prolonged and can be extremely difficult to cure.
- THE RISK OF SPREAD OF INFECTION TO MAN is of considerable importance as the disease, particularly in children, can be very severe. Concerns over the risk of infecting children may result in the euthanasia of cats in some households.
