The Cat Welfare Trust

PLEASE SUPPORT OUR RESEARCH PROJECTS

The Cat Welfare Trust is the Fancy's own charity, set up by the GCCF in 1988. The Trust Deed was written to enable funds to be used for the widest possible range of activities to benefit cats. Currently the work of cat rescue is undertaken by GCCF Affiliated Cat Clubs and so the Trust has turned to other ways of improving cat welfare.

Three projects have been undertaken so far, all of which have been funded because the subjects were of particular interest to pedigree cat owners and were not likely to attract commercial funding in their initial stages.

The first of these was a Ph.D. research project to study the preparation of a vaccine for ringworm and was undertaken by Ann Robinson at Bristol University Veterinary School. The second – the Genome Project was undertaken by Dr Matthew Binns of the Animal Health Trust and resulted in the identification and analysis of 211 markers on the feline genome map. Both these studies have provided the bases for more specific work within their fields.

We had raised sufficient money by 2003 to offer £50,000 to fund a third project. The chosen proposal was put forward by the University of Liverpool for a study into feline chronic gingivo-stomatitis. A condition familiar to many cat owners, this is a very painful disease affecting the gums and mouths of pet cats causing inflammation and ulceration. There is no cure for this condition at present.

The money the Trust could offer for this project was barely sufficient to fund a two year Masters degree study but our funding has attracted a scholarship from the University for a three year Ph.D. study and an extremely generous grant from the British Veterinary Association's Animal Welfare Foundation, which has transformed this project into a very comprehensive study. During the second year of the study it is hoped to involve pedigree cat owners, we will keep the Clubs informed. Meanwhile the project has started and the Trustees have had their first progress report from the Liverpool team

The Trust is dependant on donations from the Clubs and members of the Fancy, our only certain funding is £2500 a year from GCCF and so it is easy to see that in order to be able to make grants large enough to make a difference to cats' lives we rely on you for all the financial support possible. Donations and legacies to the Trust will ensure the continuation of this work. Please remember the Trust when you or your club consider welfare donations.

Please send donations to The Treasurer, Mrs Eileen Fryer, c/o GCCF, 4-6 Penel Orlieu, Bridgwater, TA6 3PG. Further information also available from the GCCF Office.

You can help us maximise your support by enabling the Trust to reclaim tax on your donations under the Gift Aid scheme. All you need to do is to state that you pay Income Tax and wish the Cat Welfare Trust to treat your donation as Gift Aid.

AWARDS AND SPECIALS

CERTIFICATES

Supreme Best in Show: Supreme Certificate

This will give the title, for all time, of Supreme Champion/Premier. The Certificates awarded to the Supreme Adult and Neuter will count as a Challenge/Premier Certificate if the cat is not yet a Champion/Premier, but will count as a Grand Challenge/Premier Certificate if the exhibit is a Champion, Premier, Grand Champion or Grand Premier. It will count as a UK Grand Challenge/Premier Certificate if the exhibit already holds a UK Grand Challenge/Grand Premier Certificate. For a Provisional breed exhibit the certificate will count as an Intermediate Certificate. The Supreme Kitten will also be awarded a Certificate to commemorate the win, but this will have no other value. The honour of winning Supreme Exhibit will not count towards any title.

Best of Variety: Supreme Best of Variety Certificate

This will count as a Challenge/Premier Certificate if the exhibit is not yet a Champion/Premier, but will count as a Grand Challenge/Premier Certificate if the exhibit is already a Champion/Premier or Grand Champion/Premier. For a Provisional breed exhibit the certificate will count as an Intermediate Certificate. A Best of Variety Kitten will also be awarded a Certificate to commemorate the win, but this will have no other value.

Grand Champion/Premier Classes: UK Grand Challenge/Premier Certificate

Champion/Premier Classes: Grand Challenge/Premier Certificate

Pre-Champion/Premier Classes: Challenge/Premier Certificate

Provisional status Breed Adult & Neuter Classes: Intermediate Certificate

Assessment Classes: Merit Certificate

In the event of the class judge having already awarded a similar Certificate to the winner, the Show Manager will appoint one other judge to judge the cat and countersign the Certificate if the cat is considered worthy. This award will count towards Champion/Premier/Grand Champion/Grand Premier status as appropriate. A countersignature will not be sought if the exhibit has already been awarded three Intermediate Certificates from three different Judges or four qualifying Merit Certificates from four different Judges.

Best Non-Pedigree Longhair & Non-Pedigree Shorthair and Supreme Non-Pedigree Exhibit: Certificates
These certificates will not count towards any title.

CATALOGUE

Ever since the first cat show was held in 1871, fanciers have had standards of excellence to aim for. At first there was minimal mention of the shape of the cats, the breeds differing mainly in coat length and colour, but the standards evolved, the breeds changed gradually and cats today are bred in a dozen distinct shapes.

Despite the differences in shape (or "type") essential to the various breeds, no standard of points calls for extreme deviation from the basic mongrel cat shape and size, and deformities are severely penalised in all breeds, so that today's cats still move, feed and breed naturally.

PERSIAN SECTION

The breeds in this section are all Persian in type, varying only in their coat colour, markings and eye colour or, in the case of the Exotics, their coat length. They are big, solid cats with a cobby body, sturdy legs, a short tail and a broad round head with a short nose, small ears set wide apart and large round eyes; the effect is one of roundness and substance, enhanced by the beautiful coat which should be long, dense and silky in Persians, dense and plushy in Exotics.

Exotic – Breed No. 70

The Exotic is a cat with Persian type, including the typical Persian look with its snub nose, but with a short soft coat, although the coat is slightly longer than that of the other shorthairs. It may be bred in any of the colours seen in Persian longhairs, with the eye colour appropriate to that longhair breed and in a variety of spotted colours. The classes are split into Self and Non-Self.

PROVISIONAL STATUS

Although the following breed has its own separate classes, it does not yet have Championship status.

Any Other Colour Tabby – Breed Nos. 8a, 8b, 8c, 8e, 8f, 8g, 8h, 8j

The pattern in these breeds is the classic pattern as seen in the other Tabby Persians, the colour being blue on a bluish fawn background in the Blue Tabby (8a), rich chocolate on a bronze ground in the Chocolate Tabby (8b), lilac on a beige ground in the Lilac Tabby (8c) and cream on a paler cream background in the Cream Tabby (8f). In the Tortie Tabbies the pattern and background colour are overlaid with the tortie colouring which is black and shades of red in the Tortie Tabby (8e), blue and shades of cream in the Blue Tortie Tabby (8g), chocolate and shades of red in the Chocolate Tortie Tabby (8h) and lilac and shades of cream in the Lilac Tortie Tabby (8j).

PRELIMINARY STATUS PERSIAN BREEDS

The breeds in Assessment Classes are still at the earliest stage of recognition by the GCCF. Instead of having an Open Class, each cat is assessed individually against the standard of points for its breed; the judge then decides whether or not the cat conforms sufficiently closely to its standard to be awarded a Merit Certificate.

Shaded Silver – Breed No. 55

The shaded silver has the same type, the same white undercoat and the same expressive green eyes as the Chinchilla, but has a much heavier black tipping to the hair, making the cat noticeably darker.

SEMI-LONGHAIR SECTION

This section contains those longhaired breeds which are not of Persian type. The coat is usually less dense than that of the Persian and the head and body are rather longer than those of the Persian longhairs.

SEMI-LONGHAIR ADULTS

Birman

This is one of the earliest semi-longhair breeds to be recognised. Although, like the Persian, it should be massive and well-rounded, the body, legs and tail are a little longer than in the Persian and the ears slightly larger, while the nose is straight and of medium length. The eyes are almost round and must be a deep blue. The coat is long and silky. The unique characteristic of this breed is its white feet, the front feet having white "gloves" to cover the toes and the hind feet white "gauntlets" covering the paws and tapering up the back of the leg to the hock.

Seal-Point Birman – Breed No. 13c1

The Seal-Point has seal brown points and a golden hue to its pale beige body.

Maine Coon – Breed No. 64

This semi-longhaired breed of medium foreign type originated in the USA, and is bred in a wide variety of colours, often with white markings. Maine Coons have a rugged outdoor appearance with a natural long coat which lacks the fluffiness of the Persian, but are slow to mature to their final large size. This breed is more rectangular than the Norwegian Forest Cat and the head shape is less angular.

Norwegian Forest Cat – Breed No. 67

This large but elegant semi-longhaired breed originated as an outdoor working cat on Norwegian farms and its appearance should reflect this heritage. It is slow to mature, sometimes taking up to four years to develop fully, and has a distinctive double coat, but coat colour and pattern are irrelevant. The cats here are descended from imported stock, with no outcrosses to other breeds.

The aims and objectives of the club are to promote interest in the breeding and exhibiting of Ragdolls: to help breeders by establishing a standard of points, encourage the care, protection and maintenance of healthy breed lines of Ragdolls and cats in general. We publish NewsLetters & The Ragnews Annual which is a quality publication packed full of interesting articles from our members from all over the World.

We hold Teach-ins and Seminars in both the North & South of the country so that as many as possible can attend.

With a National Kitten List, Registered Breeders List and a Rescue and Rehoming Service we offer a comprehensive Support Network.

We also have a large range of Merchandise which can be purchased from Miss Margaret Lynch on Tel: 0161 248 8696

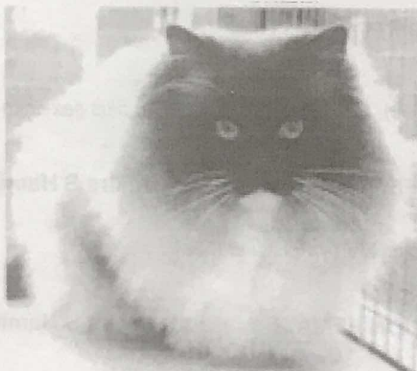

We have 2 Helpline numbers, see below, so that there is always someone on the other end of the line to help out at any time of the day.

We pride ourselves on, hopefully, being able to give the best information, help and support that we can.

SHCS 30th Championship Show - Saturday, 8th January 2005 - Telford International Centre

BRITISH SECTION

The British Shorthair is a powerful, compact cat with a sturdy body and legs, a shortish tail and a round head with small, widely-spaced ears, large, round eyes and a short, straight nose. The coat is short, dense and crisp rather than fine and close-lying like the Burmese or Siamese, but with no fluffiness to it.

BRITISH ADULTS

Blue – Breed No. 16

The British Blue is an unshaded light or medium blue in coat colour, with copper, orange or deep gold eyes.

Tabby British Shorthairs

In the British Tabbies the markings show up clearly on the short coat. The classic tabby pattern, with its "butterfly" marking on the shoulders and "oysters" on the flanks, and the mackerel pattern with thin unbroken lines running vertically from the spine are judged together. In the Spotted the markings consist of numerous clear spots of dark colour on a paler background, with no unbroken lines on the body or legs. In all except the Black Silver Tabbies and Spotties the eye colour is copper, orange or deep gold.

Manx – Breed No. 25

British in origin and shown in the British Shorthair section, the Manx does not have British type. The major difference, of course, is the complete absence of tail, but there are other differences - the back is short and the hind legs are longer than the front ones, the nose is longer than in the British and the ears are taller. The coat has a double quality as the hairs of the outer coat are longer than those of the thick undercoat. The coat and eye colours are similar to those in the British shorthairs, but are of less importance than the other features of the breed, the only pattern which is not permitted being the Colourpointed/Siamese distribution.

PRELIMINARY STATUS BRITISH BREEDS

The breeds in Assessment Classes are still at the earliest stage of recognition by the GCCF. Instead of having an Open Class, each cat is assessed individually against the standard of points for its breed; the judge then decides whether or not the cat conforms sufficiently closely to its standard to be awarded a Merit Certificate.

Class 415 – BRITISH ASSESSMENT ADULT, KITTEN OR NEUTER**Judge: Mrs V Anderson****Red Self – Breed No. 15d**

The coat of this breed is a rich deep red, and the eyes are copper, orange or deep gold.

None entered

Van pattern Bi-Colour and Tortie & White – Breed Nos. 22w, 31w

British Bi-Colours and Tortie & Whites which are mainly white with small patches of colour and a coloured tail have only preliminary recognition at present. Their eyes are copper, orange or deep gold.

Cinnamon & Fawn Selves and Colourpointed - Breed Nos. 15k, 15r, 40 21, 40 23

The newest British Shorthair colours are cinnamon and fawn. At present these are only recognised as selves, with copper, orange or deep gold eyes and as Colourpointed, with blue eyes.

None entered

Selkirk Rex – Breed No. 79

The Selkirk Rex is a curly coated breed which originated in the USA. Its type is very similar to the British Shorthair, to which it is outcrossed, with a rounded head, cobby body and sturdy legs. As it may also be outcrossed to Persians and Exotic Shorthairs, Selkirk Rex may be longhaired or shorthaired. Like the other rex breeds, they may be bred in any combination of colour and pattern.

FOREIGN SECTION

The Foreign section encompasses twelve separate shapes of cat, further subdivided by coat and colour. They have a lithe elegance, intermediate in type between the chunky solidity of the Persians and British Shorthairs and the elongation of the Siamese and Orientals. They all have short coats except the Tiffanies which are included in this section because they are part of the Asian group.

FOREIGN ADULTS

The two blue breeds, Russian Blue and Korat, are judged together in the UK Grand class.

Russian Blue – Breed No. 16

This breed has a long, graceful body and legs with a fairly long tail and a medium length head with a short straight nose making a distinct angle with the forehead. The "Russian" look is created by the large ears set on top of the head, the prominent whisker pads either side of the nose and the almond-shaped, vivid green eyes. A distinctive feature of this breed is its short, fine, velvety dense, clear blue coat which stands up from the body and shows a beautiful silvery sheen.

Korat – Breed No. 34

Another breed of medium foreign type with a blue coat, which is glossy and close-lying but short to medium in length, with silver tipping. The type differences between this and other breeds are that the back is gently curved and the head is heart-shaped when viewed from the front; the ears are large and set high and the nose has a slight downward curve. The eyes, which are particularly large and luminous, are a brilliant green, although an amber cast is acceptable in younger cats.

Abyssinian

The Abyssinian is of a similar medium foreign build to the Russian, but with a very different expression, the ears being set wide apart on the gently curved, medium wedge head, while the large oriental eyes are amber, hazel or green. The coat is very short and fine, each hair having two or three bands of colour on it, thus giving the breed its distinctive ticked appearance.

Devon Rex – Breed No. 33a

The Devon Rex is quite unlike any other breed of cat. The slender body is of medium length, the tail and legs are long, especially the hind legs, and the elegant neck tends to emphasise the head; this is wedge-shaped with full cheeks, a short muzzle, a strongly marked stop to the nose and large oval eyes. The big wide-based ears are set rather low on the head and the whisker pads are noticeable, particularly since the whiskers are crinkled. The coat, which may be any colour of any pattern, is very short, fine and soft and its waviness helps create the unique character of this breed.

PRELIMINARY STATUS FOREIGN BREEDS

The breeds in Assessment Classes are still at the earliest stage of recognition by the GCCF. Instead of having an Open Class, each cat is assessed individually against the standard of points for its breed; the judge then decides whether or not the cat conforms sufficiently closely to its standard to be awarded a Merit Certificate.

Russian White, Russian Black – Breed Nos. 16a14c, 16a15

These breeds are the white and black equivalents of the Russian Blue, with Russian type, the same vivid green eyes and the same distinctive coat texture.

Class 518 – RUSSIAN ASSESSMENT ADULT, KITTEN OR NEUTER

No entries

Thai Lilac, Thai Blue Point – Breed Nos. 34c, 34 40 2

These breeds are the lilac self and blue pointed equivalents of the Korat, with Korat type, coat and temperament. They have been bred from pure Korat lines, with no outcrosses.

Class 519 – THAI LILAC OR THAI BLUE POINT ASSESSMENT ADULT, KITTEN OR NEUTER

No entries

Any Other Colour Abyssinians – Breed Nos. 23f, 23g, 23t-23et, 23fs - 23ets

In addition to Usual, Sorrel, Blue, Fawn, Chocolate and Lilac, the Abyssinian with its distinctive ticking is seen in a variety of colours - sex-linked Red (23f) and Cream (23g) and all six colours of Tortie (Usual 23t, Sorrel 23at, Chocolate 23bt, Blue 23ct, Lilac 23dt, Fawn 23et). The Red (23fs), Cream (23gs) and Tortie Silvers (23ts-23ets) are also included in this class.

Class 520 – ABYSSINIAN ASSESSMENT ADULT, KITTEN OR NEUTER

No entries

Snow Marbled Bengal – Breed Nos. 76a20, 76b20

The Bengals which have Preliminary recognition are the AOC-Eyed Snow Marbled (76a20) which has the Burmese or Tonkinese colour restriction and Blue-Eyed Snow Marbled (76b20) which has the Siamese colour restriction.

LaPerm – Breed No. 80

The LaPerm is a curly coated breed of moderate foreign type which originated in the USA. Unlike the Cornish and Devon Rex, this curly coat is produced by a dominant gene and the breed is recognised in both longhaired and shorthaired versions, with the coat tending to stand out from the body. Like the other rex breeds, they may be bred in any combination of colour and pattern.

BURMESE SECTION

The Burmese is another breed of medium foreign type, neither as cobby as the British nor as elongated as the Siamese, but highly distinctive. The tail tapers only slightly and the head has a gently rounded look to its blunt wedge, with a distinct nose-break. The medium size ears are set well apart and tilt slightly forward and the gently slanting eyes, neither round nor oriental, vary in colour from chartreuse, through the ideal golden-yellow, to amber.

BURMESE ADULTS

Brown Burmese – Breed No. 27

The colour of the Brown Burmese is a rich, warm seal-brown, marginally darker on the mask and ears and fading slightly to a lighter shade beneath.

Burmese Cat Club Benevolent Fund Registered Charity No 1094488

The Burmese Cat Club was founded in 1955. It is noted for its welfare work and maintains a Benevolent Fund for the immediate relief of Burmese cats in need. The Benevolent Fund was granted charity status in November 2002.

The Rehoming Service helps a significant number of needy cats each year and one of our "happy endings" is here today on Club Row a 4 year old blue FN called Emma, so please come and say hello, and find out more about our rehoming work.

BCC publications include the *Burmese Cat Club News*, a comprehensive series of information leaflets on all aspects of owning and breeding Burmese, and the definitive book *The Burmese Cat*. For more information on the services provided by the Club, please use the contact details given below, or visit our Website on www.burmesecatclub.com

Welfare of the Burmese cat is the Club's prime concern. We have a regionally structured rehoming service which helps around 400 needy cats each year. The Burmese Cat Club Benevolent Fund, which depends entirely upon private donations, provides the financial support to care for distressed cats in emergency situations, and to pay for boarding and veterinary costs for cats awaiting new homes. Suitable accommodation is available by means of a series of "safe houses" established across the country. These may be held by Regional Advisers, or by any other members of the Club who can offer an appropriate environment and the necessary time and devotion to the cats in our care.

Needless to say, the costs of caring for cats in need of rescue or re-homing can soon mount up, so any donation you can make to help support a distressed or homeless Burmese cat will be greatly appreciated. Cheques, made payable to "The Burmese Cat Club Benevolent Fund", may be sent either to the Benevolent Fund Trustee or to the Honorary Treasurer.

Cats which are not claimed, or which are released into the Club's care by their former owners, are rehomed (with their non-Burmese companions where applicable!) by means of the waiting lists of people wishing to give a home to an adult Burmese. These lists are compiled by Regional Advisers in liaison with the Welfare & Rehoming Co-ordinator. Great care is taken to match cats and homes as closely as possible.

We have a centrally co-ordinated Register for lost, found and abandoned Burmese cats. They are rarely streetwise, and their fearless and friendly nature inclines them to explore open vans and cars. They can therefore find themselves "hitching a lift" which may take them far away from home. This national Register increases the chances of "matching" lost and found cats.

ORIENTAL SECTION

The Orientals have the elongated foreign type of the Siamese, with the same elegant length of head, neck, body, legs and tail and the very short, glossy coat, but lack the gene which restricts the colour to the points. They are recognised in ten self colours and seven tortie colours, together with their silver versions, in a variety of patterns giving a total of over two hundred different colour schemes. The section also includes the Angora, the Oriental semi-longhair.

ORIENTAL ADULTS

The Foreign White, Oriental Black and Oriental Blue are judged against each other for the UK Grand certificate.

Oriental Cream & Oriental Apricot – Breed No. 37f, 37fn

The Cream is the dilute version of the Red with a cool cream coat, preferably free from tabby markings. The presence of the dilute modifier gene (which produces the Caramel colour) converts Cream to Apricot - a hot cream with a metallic sheen which becomes more noticeable as the cat matures. Both colours have green eyes.

Oriental Ticked Tabby – Breed No. 45

The Ticked Tabbies are found in the same colours as the other Oriental Tabbies, including the silver versions, but instead of having a clear tabby pattern the coat should be evenly ticked all over the body, with tabby markings showing only on the face, legs, tail and "necklace".

Classes 603 & 604 – ORIENTAL TICKED TABBY ADULT

Entry in Grand Champion class only - cat 1243

Oriental Shaded – Breed No. 43

The Oriental Shaded is an agouti cat in which the pattern colour is restricted to half or less of the hair length, the lighter undercolour becoming more extensive with maturity, although many show a broken tabby pattern on the surface, especially as kittens. Both standard and silver Shaded are accepted in the full Oriental colour range, all with green eyes.

Oriental Longhair (Angora) – Breed No. 62

This breed differs from the Oriental shorthairs only in its coat length. It is found in the whole range of Oriental colours and patterns and, like the Balinese, has a silky flowing coat, lacking the thick undercoat found in many semi-longhairs and quite unlike the long, thick coat of the Persian.

SIAMESE AND BALINESE SECTION

The Siamese type is the most elongated of all, but strong and beautifully balanced, with a long svelte, muscular body, fine legs and feet, a long tapering tail and an elegant neck. The head and large ears form a triangle and the oriental eyes slant towards the nose. The coat of the Siamese is very fine, short, glossy and close-lying, while that of the Balinese is silky and flowing. The colour is, of course, highly distinctive, the eyes being clear bright blue and the beauty of the coat lying in the contrast of the darker points and paler body colour.

SIAMESE AND BALINESE ADULTS

The Seal and Blue Point Siamese, the two earliest colours, share a UK Grand class.

Balinese – Breed No. 61

This breed is the longhaired equivalent of the Siamese, being identical in shape and bred in all the Championship Siamese colours, plus Caramel and Apricot, with the same blue eyes. The coat is fairly long and silky, especially on the plume-like tail. These cats are bred from Siamese and are completely unrelated to the Colourpoint long-hairs.

The Old-style Siamese Club was founded in 1998 to provide a centre of information and support for those who wish to preserve the look, size, vigour and character of the Siamese. The Siamese reached a peak of popularity during the 1950s to 1970s and, apart from the addition of new colours, the standard of points remains virtually unchanged from that time. A good type Siamese, whether shown or not, should meet the Siamese Standard of Points.

Breeders of the Old-style Siamese Club are specifically guarding against the over-typed look that has led to some serious health problems in the Modern Siamese in the USA. One of our aims is to promote good relations between, and respect for, breeders of all types of Siamese cats. We encourage the sharing of knowledge and experience to establish a sound, healthy gene-pool for the future. Breeders are encouraged to take a long-term view by placing health and temperament first in their breeding program, rather than compromising simply to achieve a particular type in the short term. Some of the breeders on our list bring over 60 years of Siamese-breeding experience to the Club, a resource supported by a stud book listing over 40 stud cats.

The Club supports breeders and pet owners by providing stud lists, breeder, and pedigree information, and by maintaining a busy kitten list and a newsletter for the exchange of views and news of the breed as a whole. The Club Archive contains an impressive collection of rare archive material which is open for private research, and is supplemented by a growing list of facsimile publications to make this material available worldwide. We have a very active Rescue network, and committee members take club tables to most major shows in the UK through the year.

The OSSC is pre-affiliated to the GCCF. We welcome all those who wish to support and maintain the Siamese within the standard of points, those who show, and those who just love Siamese.

"CLUB ROW"

The Cat Fancy is made up of many Cat Clubs. Some of these are "area clubs" for cat enthusiasts living in a particular area; these are usually all-breed clubs and often include non-pedigree pets amongst their "breeds". Others are "specialist breed clubs" which cater for a particular breed or group of breeds throughout the country. Many of these clubs have information stalls here today so that members can meet for a chat and potential members can gather information about the clubs and about the various breeds. Many of the specialist breed clubs who are participating in this section have a display of the breeds for which they cater and several of them are exhibiting pedigree cats who were rescued by their Club Welfare group.

NON-PEDIGREE SECTION

Since these cats have no pedigrees they do not conform to any particular breed standard, but do fall into certain categories such as long or shorthaired, plain or "self" coloured such as black, white or blue, or non-self such as tabbies, tortoiseshell or white-marked cats. The essential qualities of these exhibits are that they are happy, much loved examples of the non-pedigree cat who are being shown in sparkling tip-top condition; naturally one looks more beautiful to one person than to the next, but they are all beautiful in the eyes of their owners.
