CHAMPION AND PREMIER CLAIMS

If your cat has won a Champion, Premier, Grand Champion/Premier, Imperial Grand Champion/Premier or UK Grand Champion/Premier title at a GCCF Show please make your claim to the Office (address above). Please include the cat's name, breed number, sex, breeder's name, owner's name and address, together with the names and dates of the qualifying shows and awarding judges' names. All claims are acknowledged and periodically a list of Champions etc. is published in OUR CATS shortly after which medals are sent to the owners from the GCCF office.

Owners of cats achieving the same title under GCCF and GCCF of Ireland Rules may claim 'International' status for that title by writing to the GCCF Office enclosing written confirmation of having gained the title under GCCF of Ireland Rules This written confirmation must be signed by the Secretary and stamped with the GCCF of Ireland's Seal.

Lists of breeders can be obtained from the Cat Club Secretaries shown on the List of Affiliated Clubs that can be obtained from the Office free of charge. Many of the Secretaries can be contacted via their Club websites which are linked from the GCCF website.

The Cat Welfare Trust

PLEASE SUPPORT OUR RESEARCH PROJECTS

The Cat Welfare Trust is the Fancy's own charity, set up by the GCCF in 1988. The Trust Deed was written to enable funds to be used for the widest possible range of activities to benefit cats. Currently the work of cat rescue is undertaken by GCCF Affiliated Cat Clubs and so the Trust has turned to other ways of improving cat welfare.

Three projects have been undertaken so far, all of which have been funded because the subjects were of particular interest to pedigree cat owners and were not likely to attract commercial funding in their initial stages.

The first of these was a Ph.D. research project to study the preparation of a vaccine for ringworm and was undertaken by Ann Robinson at Bristol University Veterinary School. The second – the Genome Project was undertaken by Dr Matthew Binns of the Animal Health Trust and resulted in the identification and analysis of 211 markers on the feline genome map. Both these studies have provided the bases for more specific work within their fields.

We had raised sufficient money by 2003 to offer £50,000 to fund a third project. The chosen proposal was put forward by the University of Liverpool for a study into feline chronic gingivo-stomatitis. A condition familiar to many cat owners, this is a very painful disease affecting the gums and mouths of pet cats causing inflammation and ulceration. There is no cure for this condition at present.

The money the Trust could offer for this project was barely sufficient to fund a two year Masters degree study but our funding has attracted a scholarship from the University for a three year Ph.D. study and an extremely generous grant from the British Veterinary Association's Animal Welfare Foundation, which has transformed this project into a very comprehensive study. During the second year of the study it is hoped to involve pedigree cat owners, we will keep the Clubs informed. Meanwhile the project has started and the Trustees have had their first progress report from the Liverpool team

The Trust is dependent on donations from the Clubs and members of the Fancy, our only certain funding is £2500 a year from GCCF and so it is easy to see that in order to be able to make grants large enough to make a difference to cats' lives we rely on you for all the financial support possible. Donations and legacies to the Trust will ensure the continuation of this work. Please remember the Trust when you or your club consider welfare donations.

Please send donations to The Treasurer, Mrs Eileen Fryer, c/o GCCF, 5 King's Castle Business Park, The Drove, Bridgwater, TA6 4AG. Further information also available from the GCCF Office.

You can help us maximise your support by enabling the Trust to reclaim tax on your donations under the Gift Aid scheme. All you need to do is to state that you pay Income Tax and wish the Cat Welfare Trust to treat your donation as Gift Aid.

FROM THE CHAIRMAN OF THE GCCF

The Supreme Show Committee welcomes you to the Thirtieth Supreme Championship Show.

I must thank all the exhibitors who make this GCCF Show unique with their lovely cats and beautifully decorated pens. The theme this year, of "30 Years of Progress ?", will I am sure tax the ingenuity of the exhibitors and make the judges' choice even more interesting!!!!

Club Row is a very useful source of information about the various breeds. Many of the Clubs also raise funds to run a "rescue" service to look after the welfare of cats, which through no fault of their own fall on hard times. So if you are looking for an older pedigree cat, there will be that special one for you needing a new and loving "lap".

Once again the Cat Welfare Trust will have representation. Please visit their stand where Mrs. Lesley Pring, our President and Trustee of the CWT, and Kitty Foster, the PhD student involved with the Gingivitis study, together with representatives from the Liverpool Veterinary School, will be happy to update you on the Project and the work of the CWT.

In 1983 Mrs. Pring, then Chairman, with the Executive and Finance Committee were instrumental in setting up our first "Headquarters" at Bridgwater. Having outgrown those premises we were lucky to find a modern property, still in Bridgwater, and moved in June. This was a mammoth task, but well worth the effort. My thanks must go to the staff for all their hard work, and all the members of the cat fancy for their patience whilst we caught up with the back-log of work.

To all the willing workers who give their time unstintingly, the Judges, the Stewards, the Show Committee, the Office Staff, and most of all the owners who have brought their cats in whatever capacity, from competition to club row .

ALL FOR OUR ENJOYMENT – THANKYOU..

Betty Shingleton

AWARDS AND SPECIALS

CERTIFICATES

Supreme Best in Show: Supreme Certificate

This will give the title, for all time, of Supreme Champion/Premier. The Certificates awarded to the Supreme Adult and Neuter will count as a Challenge/Premier Certificate if the cat is not yet a Champion/Premier, but will count as a Grand Challenge/Premier Certificate if the exhibit is a Champion, Premier, Grand Champion or Grand Premier. It will count as a UK Grand Challenge/Premier Certificate if the exhibit already holds a UK Grand Challenge/Grand Premier Certificate. For a Provisional breed exhibit the certificate will count as an Intermediate Certificate. The Supreme Kitten will also be awarded a Certificate to commemorate the win, but this will have no other value. The honour of winning Supreme Exhibit will not count towards any title.

Best of Variety: Supreme Best of Variety Certificate

This will count as a Challenge/Premier Certificate if the exhibit is not yet a Champion/Premier, but will count as a Grand Challenge/Premier Certificate if the exhibit is already a Champion/Premier or Grand Champion/Premier. For a Provisional breed exhibit the certificate will count as an Intermediate Certificate. A Best of Variety Kitten will also be awarded a Certificate to commemorate the win, but this will have no other value.

Grand Champion/Premier Classes: UK Grand Challenge/Premier Certificate

Champion/Premier Classes: Grand Challenge/Premier Certificate

Pre-Champion/Premier Classes: Challenge/Premier Certificate

Provisional status Breed Adult & Neuter Classes: Intermediate Certificate

Assessment Classes: Merit Certificate

In the event of the class judge having already awarded a similar Certificate to the winner, the Show Manager will appoint one other judge to judge the cat and countersign the Certificate if the cat is considered worthy. This award will count towards Champion/Premier/Grand Champion/Grand Premier status as appropriate. A countersignature will not be sought if the exhibit has already been awarded three Intermediate Certificates from three different Judges or four qualifying Merit Certificates from four different Judges.

Best Non-Pedigree Longhair & Non-Pedigree Shorthair and Supreme Non-Pedigree Exhibit: Certificates

These certificates will not count towards any title.

CATALOGUE

Ever since the first cat show was held in 1871, fanciers have had standards of excellence to aim for. At first there was minimal mention of the shape of the cats, the breeds differing mainly in coat length and colour, but the standards evolved, the breeds changed gradually and cats today are bred in a dozen distinct shapes.

Despite the differences in shape (or "type") essential to the various breeds, no standard of points calls for extreme deviation from the basic mongrel cat shape and size, and deformities are severely penalised in all breeds, so that today's cats still move, feed and breed naturally.

PERSIAN SECTION

The breeds in this section are all Persian in type, varying only in their coat colour, markings and eye colour or, in the case of the Exotics, their coat length. They are big, solid cats with a cobby body, sturdy legs, a short tail and a broad round head with a short nose, small ears set wide apart and large round eyes; the effect is one of roundness and substance, enhanced by the beautiful coat which should be long, dense and silky in Persians, dense and plushy in Exotics.

Any Other Colour Smoke – Breed Nos. 6d, 6e, 6f, 6g, 6h, 6j

These breeds differ from the Black Smoke only in their colours which are red, tortie, cream, blue-cream, chocolate tortie & lilac tortie respectively. Like the Black and Blue Smokes, the top colour should show no tabby markings and the contrasting undercoat should be as near white as possible.

Classes 42 & 43 – RED, CREAM OR TORTIE SMOKE PERSIAN ADULT

Entry in Grand Champion class only - cat 47

Dominant Shaded or Tipped Cameos – Breed Nos. 51 & 52

These Persian cats have pale silvery undercoats. The Shaded Cameo (51) is more heavily marked. The Tipped Cameo (52) is more lightly marked, having only coloured tips to the hairs. All have orange eyes. They may be shaded or tipped with black (51, 52), chocolate (51b, 52b), red (51d, 52d, previously 51 2 and 51 1), tortie - black and red (51e, 52e, previously 51 4) or chocolate tortie - chocolate and red (51h, 52h). (Cats which were registered before the change of breed number retain their original number.)

PRELIMINARY STATUS PERSIAN BREEDS

The breeds in Assessment Classes are still at the earliest stage of recognition by the GCCF. Instead of having an Open Class, each cat is assessed individually against the standard of points for its breed; the judge then decides whether or not the cat conforms sufficiently closely to its standard to be awarded a Merit Certificate.

Shaded Silver – Breed No. 55

The Shaded Silver has the same type, the same white undercoat and the same expressive green eyes as the Chinchilla, but has a much heavier black tipping to the hair, making the cat noticeably darker.

Class 183 – SHADED SILVER PERSIAN ASSESSMENT ADULT, KITTEN OR NEUTER

Tabby Bi-Colours and Tortie Tabby & White – Breed Nos. 12a1t - 12a10t

These recently recognised Persian breeds are the tabby versions of all Bi-Colour and Tortie & White breeds, from 12a1t - Brown Tabby & White to 12a10t - Lilac Tortie Tabby & White.

Class 184 – TABBY BI- OR TRI-COLOUR PERSIAN ASSESSMENT ADULT, KITTEN OR NEUTER

Judge: Mrs R Fisher

169 Mrs S Downes, TREVORRY NEMESHA (12a6t) (F)
29.06.05. Macglen's Rerun-run (12a1t) x Larchvale Persephone (12a8t)
Breeder: Mrs H Carlisle

SEMI-LONGHAIR SECTION

This section contains those longhaired breeds which are not of Persian type. The coat is usually less dense than that of the Persian and the head and body are rather longer than those of the Persian longhairs.

SEMI-LONGHAIR ADULTS

Birman

This is one of the earliest semi-longhair breeds to be recognised. Although, like the Persian, it should be massive and well-rounded, the body, legs and tail are a little longer than in the Persian and the ears slightly larger, while the nose is straight and of medium length. The eyes are almost round and must be a deep blue. The coat is long and silky. The unique characteristic of this breed is its white feet, the front feet having white "gloves" to cover the toes and the hind feet white "gauntlets" covering the paws and tapering up the back of the leg to the hock.

Maine Coon – Breed No. 64

This semi-longhaired breed of medium foreign type originated in the USA, and is bred in a wide variety of colours, often with white markings. Maine Coons have a rugged outdoor appearance with a natural long coat which lacks the fluffiness of the Persian, but are slow to mature to their final large size. This breed is more rectangular than the Norwegian Forest Cat and the head shape is less angular.

Norwegian Forest Cat – Breed No. 67

This large but elegant semi-longhaired breed originated as an outdoor working cat on Norwegian farms and its appearance should reflect this heritage. It is slow to mature, sometimes taking up to four years to develop fully, and has a distinctive double coat, but coat colour and pattern are irrelevant. The cats here are descended from imported stock, with no outcrosses to other breeds.

Founded in 1987, having formed the Ragdoll BAC and being the first Ragdoll Breed Club in the UK, we have an International Membership of over 500

**Our 5th CHAMPIONSHIP SHOW is being held on
6th JANUARY 2007 AT
TELFORD INTERNATIONAL CENTRE,
TELFORD, SHROPSHIRE**

Entries Close:- Thursday 30th November 2006

Schedules are available from the Show Manager, Mr Allen Wells, 42 Cherry Tree Green, Hertford, Hertfordshire, SG14 2HP Tel: 01992 504411
Please enclose a large SAE

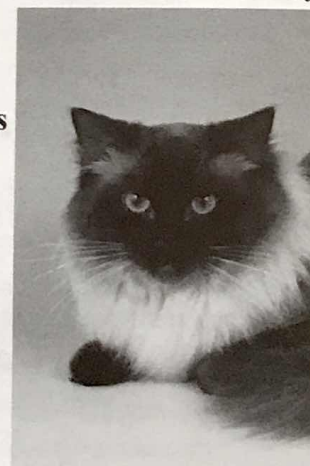

The aims and objectives of the club are to promote interest in the owning, breeding and exhibiting of Ragdolls: to help breeders by maintaining the standard of points, encourage the care, protection and maintenance of healthy breed lines of Ragdolls and cats in general.

We publish quarterly newsletters and the Ragnews Annual. This is a quality publication packed full of interesting articles from our members from all over the World.

We also hold Seminars in both the North and South of the country to allow as many people as possible to attend.

With a National Kitten List, Registered Breeders List and a Rehoming Service we offer a comprehensive Support Network.

A large range of Merchandise is also available from
Nicola Hillman on 01495 306608

We have Helpline numbers available, so that there is always someone on the other end of the line to help out at any time of the day. We pride ourselves on, hopefully, being able to give the best information, help and support that we can.

If you are interested in joining the TBRCC or For Further Information, Please

PRELIMINARY STATUS SEMI-LONGHAIR BREEDS

The breeds in Assessment Classes are still at the earliest stage of recognition by the GCCF. Instead of having an Open Class, each cat is assessed individually against the standard of points for its breed; the judge then decides whether or not the cat conforms sufficiently closely to its standard to be awarded a Merit Certificate.

Siberian – Breed No. 82

The Siberian, as its name suggests, originated in Russia and is another Semi-Longhair of moderate type. It is bred in any colour except cinnamon, caramel, fawn and apricot, any pattern, including pointed, with or without white.

Founded 1987.

**Affiliated with the Governing Council of the Cat Fancy
and the Feline Advisory Bureau.**

The Norwegian Forest Cat Club was founded in 1987 when the first breeding Norwegian Forest Cats were brought to Britain from Scandinavia. We welcome as members all who love Norwegian Forest Cats, here and abroad. Our aim is to widen public knowledge about this wonderful breed, and to help any NFC in distress. We encourage responsible ownership, breeding and showing of Norwegian Forest Cats.

Some of the original importers of Norwegian Forest Cats are still breeding today. Since that first handful, many fresh bloodlines have been imported into Britain by Club members, so that today NFCs number in the thousands rather than hundreds. As Norwegian Forest Cats became more popular, the NFCC guided the breed to Championship status within the GCCF. This achievement took place in June 1997, since when we have also been running our own show. This takes place each February in the Midlands and is the largest gathering of Norwegian Forest Cats in Britain.

Since our small beginnings the breed has gone from strength to strength as English, Scottish, Welsh and Irish people have taken these wonderful, natural cats into their homes and their hearts. Now there are over forty breeders throughout the country and NFCs are well represented at all-breed Cat Shows both in the GCCF and the Felis Britannica (FIFe).

We would love you join us today on Club Row – visit our stand and meet some stunning Norwegian Forest Cats!

We have a range of free leaflets on our stand with information about the NFC and the Club – also please feel free to ask us any questions you may have about these beautiful cats. We also have membership application forms and free kitten and breeder lists.

If you would like to join the NFCC please contact Marilyn Skulski, our Membership Secretary, on 01235 851805, or join today at the Club Stand on Club Row.

For further information about the Club or up to date kitten information please contact our Secretary, Kate Healing on 01904 720261.

The breeders on the Norwegian Forest Cat Club Breeders' List have all agreed to abide by the GCCF Code of Ethics. The Club cannot be held responsible for individual breeders' kittens, information, or documentation supplied, or any form of contract agreed between parties. * Public Stud Cat.

The Norwegian Forest Cat is truly a natural breed and really does originate from Norway. The exact origins of the Forest Cats will never be precisely established, but one thing is certain: NFCs can be found in Norwegian folklore, where it is said that these cats were the family pets of the Vikings. As early as the sixteenth century such cats were described as being large, with long legs, big ruffs and ear tufts. Just like the Forest Cats of today, they had a particular liking for water, with the ability to catch fish in lakes and streams. In some folk tales they are referred to as the "Fairy Cat" - it is easy to imagine them appearing supernatural as they flitted amongst the trees with their long, elegant bodies and flowing, bushy tails. The Norwegian Forest Cat as we know it today has developed through natural selection, as only the toughest cats with the thickest waterproof coats and other special features would be able to survive in Norway's harsh climate. However, they probably crept in to keep warm by the farmers' hearths when they could, and have always been known to like being around people. Eventually, as the remote areas of Norway became more heavily populated the breed was in danger of dying out, so a special breeding programme began. Since then the breed has gone from strength to strength and is now extremely popular in many countries, particularly Scandinavia, where as many as 200 Norwegian Forest Cats can be seen at a cat show, second only to the Longhairs.

BRITISH SECTION

The British Shorthair is a powerful, compact cat with a sturdy body and legs, a shortish tail and a round head with small, widely-spaced ears, large, round eyes and a short, straight nose. The coat is short, dense and crisp rather than fine and close-lying like the Burmese or Siamese, but with no fluffiness to it.

Tabby British Shorthairs

In the British Tabbies the markings show up clearly on the short coat. The classic tabby pattern, with its "butterfly" marking on the shoulders and "oysters" on the flanks, and the mackerel pattern with thin unbroken lines running vertically from the spine are judged together. In the Spotted the markings consist of numerous clear spots of dark colour on a paler background, with no unbroken lines on the body or legs. In all except the Black Silver Tabbies and Spotties the eye colour is copper, orange or deep gold.

Manx – Breed No. 25

British in origin and shown in the British Shorthair section, the Manx does not have British type. The major difference, of course, is the complete absence of tail, but there are other differences - the back is short and the hind legs are longer than the front ones, the nose is longer than in the British and the ears are taller. The coat has a double quality as the hairs of the outer coat are longer than those of the thick undercoat. The coat and eye colours are similar to those in the British shorthairs, but are of less importance than the other features of the breed, the only pattern which is not permitted being the Colourpointed/Siamese distribution.

PRELIMINARY STATUS BRITISH BREEDS

The breeds in Assessment Classes are still at the earliest stage of recognition by the GCCF. Instead of having an Open Class, each cat is assessed individually against the standard of points for its breed; the judge then decides whether or not the cat conforms sufficiently closely to its standard to be awarded a Merit Certificate.

Selkirk Rex – Breed No. 79

The Selkirk Rex is a curly coated breed which originated in the USA. Its type is very similar to the British Shorthair, to which it is outcrossed, with a rounded head, cobby body and sturdy legs. As it may also be outcrossed to Persians and Exotic Shorthairs, Selkirk Rex may be longhaired or shorthaired. Like the other rex breeds, they may be bred in any combination of colour and pattern.

FOREIGN SECTION

The Foreign section encompasses twelve separate shapes of cat, further subdivided by coat and colour. They have a lithe elegance, intermediate in type between the chunky solidity of the Persians and British Shorthairs and the elongation of the Siamese and Orientals. They all have short coats except the Tiffanies which are included in this section because they are part of the Asian group.

Russian Blue – Breed No. 16

This breed has a long, graceful body and legs with a fairly long tail and a medium length head with a short straight nose making a distinct angle with the forehead. The "Russian" look is created by the large ears set on top of the head, the prominent whisker pads either side of the nose and the almond-shaped, vivid green eyes. A distinctive feature of this breed is its short, fine, velvety dense, clear blue coat which stands up from the body and shows a beautiful silvery sheen.

Korat – Breed No. 34

Another breed of medium foreign type with a blue coat, which is glossy and close-lying but short to medium in length, with silver tipping. The type differences between this and other breeds are that the back is gently curved and the head is heart-shaped when viewed from the front; the ears are large and set high and the nose has a slight downward curve. The eyes, which are particularly large and luminous, are a brilliant green, although an amber cast is acceptable in younger cats.

Abyssinian

The Abyssinian is of a similar medium foreign build to the Russian, but with a very different expression, the ears being set wide apart on the gently curved, medium wedge head, while the large oriental eyes are amber, hazel or green. The coat is very short and fine, each hair having two or three bands of colour on it, thus giving the breed its distinctive ticked appearance.

Cornish Rex – Breed No. 33

This breed has medium foreign body type but with particularly long legs and tail. The head is a medium wedge with a straight nose, large ears set rather high and medium sized oval eyes. The coat is short and plushy with a highly characteristic curl or wave to it, producing ripples all down the body to the tip of the tail; even the eyebrows and whiskers are crinkled. Cornish Rex may be any colour of any pattern.

Devon Rex – Breed No. 33a

The Devon Rex is quite unlike any other breed of cat. The slender body is of medium length, the tail and legs are long, especially the hind legs, and the elegant neck tends to emphasise the head; this is wedge-shaped with full cheeks, a short muzzle, a strongly marked stop to the nose and large oval eyes. The big wide-based ears are set rather low on the head and the whisker pads are noticeable, particularly since the whiskers are crinkled. The coat, which may be any colour of any pattern, is very short, fine and soft and its waviness helps create the unique character of this breed.

PRELIMINARY STATUS FOREIGN BREEDS

The breeds in Assessment Classes are still at the earliest stage of recognition by the GCCF. Instead of having an Open Class, each cat is assessed individually against the standard of points for its breed; the judge then decides whether or not the cat conforms sufficiently closely to its standard to be awarded a Merit Certificate.

Russian White, Russian Black – Breed Nos. 16a14c, 16a15

These breeds are the white and black equivalents of the Russian Blue, with Russian type, the same vivid green eyes and the same distinctive coat texture.

Class 536 – RUSSIAN ASSESSMENT ADULT, KITTEN OR NEUTER

None entered

Thai Lilac, Thai Blue Point – Breed Nos. 34c, 34 40 2

These breeds are the lilac self and blue pointed equivalents of the Korat, with Korat type, coat and temperament. They have been bred from pure Korat lines, with no outcrosses.

Class 537 – THAI LILAC OR THAI BLUE POINT ASSESSMENT ADULT, KITTEN OR NEUTER

None entered

Any Other Colour Abyssinians – Breed Nos. 23f, 23g, 23t-23et, 23fs - 23ets

In addition to Usual, Sorrel, Blue, Fawn, Chocolate and Lilac, the Abyssinian with its distinctive ticking is seen in a variety of colours - sex-linked Red (23f) and Cream (23g) and all six colours of Tortie (Usual 23t, Sorrel 23at, Chocolate 23bt, Blue 23ct, Lilac 23dt, Fawn 23et). The Red (23fs), Cream (23gs) and Tortie Silvers (23ts-23ets) are also included in this class.

Class 538 – ABYSSINIAN ASSESSMENT ADULT, KITTEN OR NEUTER

None entered

Snow Marbled Bengal – Breed Nos. 76a20, 76b20

The Bengals which have Preliminary recognition are the AOC-Eyed Snow Marbled (76a20) which has the Burmese or Tonkinese colour restriction and Blue-Eyed Snow Marbled (76b20) which has the Siamese colour restriction.

LaPerm – Breed No. 80

The LaPerm is a curly coated breed of moderate foreign type which originated in the USA. Unlike the Cornish and Devon Rex, this curly coat is produced by a dominant gene and the breed is recognised in both longhaired and shorthaired versions, with the coat tending to stand out from the body. Like the other rex breeds, they may be bred in any combination of colour and pattern.

BURMESE SECTION

The Burmese is another breed of medium foreign type, neither as cobby as the British nor as elongated as the Siamese, but highly distinctive. The tail tapers only slightly and the head has a gently rounded look to its blunt wedge, with a distinct nose-break. The medium size ears are set well apart and tilt slightly forward and the gently slanting eyes, neither round nor oriental, vary in colour from chartreuse, through the ideal golden-yellow, to amber.

BURMESE ADULTS

Brown Burmese – Breed No. 27

The colour of the Brown Burmese is a rich, warm seal-brown, marginally darker on the mask and ears and fading slightly to a lighter shade beneath.

ORIENTAL SECTION

The Orientals have the elongated foreign type of the Siamese, with the same elegant length of head, neck, body, legs and tail and the very short, glossy coat, but lack the gene which restricts the colour to the points. They are recognised in ten self colours and seven tortie colours, together with their silver versions, in a variety of patterns giving a total of over two hundred different colour schemes. The section also includes the Angora, the Oriental semi-longhair.

ORIENTAL ADULTS

The Foreign White, Oriental Black and Oriental Blue are judged against each other for the UK Grand certificate.

Oriental Cream & Oriental Apricot – Breed No. 37f, 37fn

The Cream is the dilute version of the Red with a cool cream coat, preferably free from tabby markings. The presence of the dilute modifier gene (which produces the Caramel colour) converts Cream to Apricot - a hot cream with a metallic sheen which becomes more noticeable as the cat matures. Both colours have green eyes.

Oriental Spotted Tabby – Breed No. 38

Apart from its Oriental type, the essential of this breed is its well defined spotted tabby pattern. All colours, including the tortie spotties and the silver versions of all seventeen colours are judged together. The eye colour is green, although it may be less vivid in the Red, Cream and Apricot Spotties.

Classes 618 & 619 – ORIENTAL SPOTTED TABBY ADULT

None entered

Oriental Classic or Mackerel Tabby – Breed Nos. 41 & 44

These Oriental Tabbies have the same oriental type and green eyes as the Spotted but have the classic or the rarer mackerel tabby pattern as seen in the British Shorthairs. All colours of both patterns are judged together in the same class.

Class 620 – ORIENTAL CLASSIC OR MACKEREL TABBY CHAMPION

Oriental Ticked Tabby – Breed No. 45

The Ticked Tabbies are found in the same colours as the other Oriental Tabbies, including the silver versions, but instead of having a clear tabby pattern the coat should be evenly ticked all over the body, with tabby markings showing only on the face, legs, tail and "necklace".

Classes 622 & 623 – ORIENTAL TICKED TABBY ADULT

None entered

Oriental Shaded – Breed No. 43

The Oriental Shaded is an agouti cat in which the pattern colour is restricted to half or less of the hair length, the lighter undercolour becoming more extensive with maturity, although many show a broken tabby pattern on the surface, especially as kittens. Both standard and silver Shaded are accepted in the full Oriental colour range, all with green eyes.

PRELIMINARY STATUS ORIENTAL BREEDS

The breeds in Assessment Classes are still at the earliest stage of recognition by the GCCF. Instead of having an Open Class, each cat is assessed individually against the standard of points for its breed; the judge then decides whether or not the cat conforms sufficiently closely to its standard to be awarded a Merit Certificate.

Oriental Bicolour – Breed Nos. 48, 49

These are bred in all Oriental colours and patterns, plus the pointed (Siamese) versions of these colours and patterns, with both short (48) and semi-long (49) coats. They must have a minimum of one third white, with white on the face, feet and along the underside, up to van distribution of white. The pointed cats all have blue eyes, but the non-pointed cats may have green eyes, one green and one blue or even two blue eyes.

The Club's Championship show is held annually on the first Saturday in November. The current venue is Stantonbury Campus Leisure Centre, Milton Keynes, Bucks. The show is open to all Siamese and one of the highlights is the Gallery of Fame which is an exhibition of cats who have made a contribution to the success of the breed. Schedules are available in August by post and on the club website

THE CLUB WEBSITE
www.siamesecatclub.co.uk

The website contains lots of information about the Club, its history and aims. There are items of interest to members and non members. There is a very successful page of members kittens for sale, pictures and results from the latest show, details of how to obtain the current list of Siamese cats at stud. There are member's pages with information about the club's latest activities etc and one for members' own website and e mail details.

Please contact Brigid Oakley for anything to do with the website on 020 8464 8857 or brigid@siamesecatclub.co.uk

HOW WE BEGAN

The Siamese Cat Club was left a legacy for the use of their welfare fund and at the club's Annual General Meeting in 1998 it was unanimously agreed that a Charitable Trust would be set up, using the legacy for the initial funding. This was eventually registered with the Charity Commission and became The Siamese Cat Club Welfare Trust.

The Trust's objectives are- To take in/rescue Siamese cats that are unwanted, abandoned, lost distressed, old or sick and that any action taken will be in their best interest. To provide improved or long term welfare as necessary. In the case of Lost cats, endeavour to reunite them with the legitimate owner. To take in/rescue any companion cat other than Siamese providing they are part of the Siamese family being taken in. All our welfare officers have fostering facilities

OUR WELFARE OFFICERS are-
Mrs Brigid Oakley 020 8464 8857
Kent, London, Surrey

Mr Adrian & Mrs Niki Hill 01473 830894

We liaise with other welfare organisations & Siamese cat clubs throughout the country

VISIT OUR WEBSITE at www.siameserescue.org.uk

Updated regularly, it will tell you more about what we do, how we do it and details of the cats we have for homing

There is a Lost and Found list for Siamese and a separate one for Orientals, Burmese etc.

There are pictures, links to Siamese stories and other items, all to do with Siamese welfare

Our Contact page will help you find the Siamese welfare group nearest to your area.

We have a sponsoring scheme to help maintain our cats in permanent care who cannot be rehomed for various reasons. This is called

Adopt a Cat and all the cats available can be seen on the website at www.adoptacat.org.uk

Any enquiries regarding the above websites should be addressed to Brigid Oakley on 020 8464 8857 or scwt@siameserescue.org.uk

SIAMESE AND BALINESE SECTION

The Siamese type is the most elongated of all, but strong and beautifully balanced, with a long svelte, muscular body, fine legs and feet, a long tapering tail and an elegant neck. The head and large ears form a triangle and the oriental Balinese is silky and flowing. The colour is, of course, highly distinctive, the eyes being clear bright blue and the beauty of the coat lying in the contrast of the darker points and paler body colour.

SIAMESE AND BALINESE ADULTS

The Seal and Blue Point Siamese, the two earliest colours, share a UK Grand class.

Tabby Point Siamese – Breed No. 32
Tabby Points in seal (32 1), blue (32 2), chocolate (32 3), lilac (32 4), cinnamon (32 7), caramel (32 8), fawn (32 9), red (32 5), cream (32 6) and apricot (32 10), plus the seven tortie colours (32t1, 32t2, 32t3, 32t4, 32t7, 32t8, 32t9) all now have Championship status. The points colour and body colour are equivalent to those in the solid colour versions. The mask is striped, with spotted whisker pads, the tail shows clear rings and the legs have broken stripes. The ears have paler central areas known as "thumb marks" although these often do not show so well on dilute colours or on the Tortie Tabbies where the ears are mottled.

"CLUB ROW"

The Cat Fancy is made up of many Cat Clubs. Some of these are "area clubs" for cat enthusiasts living in a particular area; these are usually all-breed clubs and often include non-pedigree pets amongst their "breeds". Others are "specialist breed clubs" which cater for a particular breed or group of breeds throughout the country. Many of these clubs have information stalls here today so that members can meet for a chat and potential members can gather information about the clubs and about the various breeds. Many of the specialist breed clubs who are participating in this section have a display of the breeds for which they cater and several of them are exhibiting pedigree cats who were rescued by their Club Welfare group.

NON-PEDIGREE SECTION

Since these cats have no pedigrees they do not conform to any particular breed standard, but do fall into certain categories such as long or shorthaired, plain or "self" coloured such as black, white or blue, or non-self such as tabbies, tortoiseshell or white-marked cats. The essential qualities of these exhibits are that they are happy, much loved examples of the non-pedigree cat who are being shown in sparkling tip-top condition; naturally one looks more beautiful to one person than to the next, but they are all beautiful in the eyes of their owners.
