

# SIAMESE AND BALINESE SECTION

The Siamese type is the most elongated of all, but strong and beautifully balanced, with a long svelte, muscular body, fine legs and feet, a long tapering tail and an elegant neck. The head and large ears form a triangle and the oriental eyes slant towards the nose. The coat of the Siamese is very fine, short, glossy and close-lying, while that of the Balinese is silky and flowing. The colour is, of course, highly distinctive, the eyes being clear bright blue and the beauty of the coat lying in the contrast of the darker points and paler body colour.

## SIAMESE AND BALINESE ADULTS
