SKYLON

SKYLON, capable of mach 25, ten times faster than Concorde and Britain's best chance of glory in the development of Space planes for very fast global travel and low-Earth orbit missions to the fringe of space in the 21st century and beyond.

The awesome SKYLON Space plane will be capable of the journey from Heathrow to Sydney, or Melbourne, Australia, or Auckland, New Zealand, in just 45 minutes flying time – what a prospect for the 21st century.

With its powerful SABRE engines, which are a Hybrid Jet and Rocket engine, it will climb to 85,000 feet in less than 7 minutes, to the very edge of Space itself, where the sky is jet black and the stars stand out like jewels.

It would then bounce on the fringe of the atmosphere, like a stone does across water, until it is time to put the nose down for landing, making a powered descent.

A human pilot would not be able to think quickly enough to control it – so SKYLON will be piloted by computers.

At first SKYLON will be used for the fast delivery of mail – but after a few years of testing and proving it will be used to carry passengers as well and will then be about the same size that Concorde would have been.

SKYLON is being developed by Reaction Engines Ltd., based in Oxfordshire, and it has received Government funding.

It is due to fly in 2018 and become operational by 2020.

If all of this goes to plan – Britain will, rightly, lead the world once more in the Aerospace Industry.

All of this vindicates what we at CHARMEUSE & CATRONAUT Burmese have been saying about SKYLON – from at least 1995 its first showing at a Cat Show.

When it first appeared at the Supreme Cat Show – the Designer of SKYLON, Alan Bond, was invited to the Show.

He looked at it in awe and said “When I designed the Space plane SKYLON – I never, ever, thought it would, or could, be used at a Cat Show!”

He then said “The real SKYLON will have a mat black finish – I like your chrome silver finish – don't change it.”

After showing the Spaceflight Extravaganza Special Displays for 26 years and the Big Pen for 24 years and the awesome Skylon Display for 16 years – it is time to stop. I am now in my Eighty-second year and cannot go on much longer. I collapsed on our trip to the 2009 Burmese Cat Club Show – and this is a warning which I am taking seriously. I shall still show our cats for a little longer – but, sadly, the showing of our unique, heavy, displays must come to an end. Thank you all for your concern - Goodbye and Good Luck to you all – do, please, remember these special and unique displays in the years to come – you will not see their like again, of that I am certain.
