# Cat Welfare Trust

**The Cat fancy's own Charity. established 1988**

**Registered Charity No. 800719**

**cwt**

The Cat Welfare Trust is the Fancy's own charity, set up by the GCCF in 1988. The Trust Deed was written to enable funds to be used for the widest possible range of activities to benefit cats. Currently the work of cat rescue is undertaken by GCCF Member Cat Clubs and so the Trust has turned to other ways of improving cat welfare.

Three projects have been completed so far, all of which have been funded because the subjects were of particular interest to pedigree cat owners and were not likely to attract commercial funding in their initial stages.

The first of these was a Ph.D. research project to study the preparation of a vaccine for ring-worm and was undertaken by Ann Robinson at Bristol University Veterinary School. The second - the Genome Project was undertaken by Dr Matthew Binns of the Animal Health Trust and resulted in the identification and analysis of 211 markers on the feline genome map. The third - a study into feline chronic gingivostomatitis - was carried out by Kitty Healey at the University of Liverpool. Chronic gingivostomatitis is a condition familiar to many cat owners, this is a very painful disease affecting the gums and mouths of pet cats causing inflammation and ulceration and there is currently no cure for this condition. Kitty's research has established a link between this condition and FCV reinforcing the need for regular vaccination. Kitty's thesis summary can be seen on the GCCF website.

The current project is a study being conducted by Bristol University in conjunction with Manchester University and the University of California-Davis into the genes that play a pivotal role in the control of infectious diseases particularly Feline Infectious Peritonitis.

The study should also objectively determine relative levels of inbreeding in various breeds and whether the gene pool is dangerously narrow putting specific breeds at increased risk of inherited disorders and disease susceptibilities. Results of this latter part of the study should supplement the information available to the BACs when they look at their breeding policies and help encourage best practise.

The Trust is dependent on donations from the Clubs and members of the Fancy and so it is easy to see that in order to be able to make grants large enough to make a difference to cats' lives we rely on you for all the financial support possible. Donations and legacies to the Trust will ensure the continuation of this work. Please remember the Trust when you or your club consider welfare donations.

Please send donations to The Treasurer, Mrs Eileen Fryer, c/o GCCF, 5 King's Castle Business Park, The Drove, Bridgwater, TA6 4AG. Further information is also available from the GCCF Office.

You can help us maximise your support by enabling the Trust to reclaim tax on your donations under the Gift Aid scheme. All you need to do is to state that you pay Income Tax and wish the Cat Welfare Trust to treat your donation as Gift Aid.

## Chairman's Welcome

*The year has just flown by and here we all are again for the most prestigious cat show of the year. So welcome to the GCCF 35th Supreme Championship Show. In keeping with events, this year the theme is 'Royalty' and I am looking forward to admiring the spectacular decorated pens. Also on show this year are the Past Supreme Title Winners which will be well worth a look. The Special Fun Kitten Class will be an added attraction during the day. For help and advice on your favourite cats visit Club Row where experts will be able to tell you anything you want to know about their breeds. A GCCF stand is located near the entrance to the hall where you can chat to some of the staff from the Bridgwater office. Many useful leaflets and booklets are available including copies of the first edition of 'GCCF News and Views'.*

*It has been an exciting year for the GCCF with a splendid stand to host the World of Cats at the London Pet Show supported by our Clubs and cat breeders. The gala dinner was also an excellent event to celebrate the GCCF centenary year.*

*The Young Exhibitor Scheme, YES, has captured the interest of our junior exhibitors with many working through the Novice level with enthusiasm and with two candidates already progressing in the Intermediate level. Well done to you all.*

*Our GCCF Area and Breed Clubs have put on some wonderful shows during the year and introduced the new Olympian Awards where the Imperial titled cats of all breeds compete against each other for the coveted award.*

*There has been much discussion about the structure of classes at GCCF shows, with several clubs putting forward suggestions for innovation and competition. To give as many people as possible in the Cat Fancy the opportunity to listen to discussion and put forward suggestions, the Board of Directors has agreed to hold an open forum prior to the February 2012 Council Meeting. This forum will be open to all, not just delegates, and you will be welcome to stay as an observer for the remainder of the Council Meeting. Further information will be available on the GCCF website in due course and also in the winter edition of 'GCCF News and Views'.*

*I would like to thank Celia Leighton, the Show Manager, and her team of helpers, table workers, judges and stewards who all work so hard to make this a fantastic day. Finally, and especially a big thank you to all our exhibitors for bringing their wonderful cats. I hope both you and your cat have a rewarding and enjoyable day.*

*Helen*

# CATALOGUE

Ever since the first cat show was held in 1871, fanciers have had standards of excellence to aim for. At first there was minimal mention of the shape of the cats, the breeds differing mainly in coat length and colour, but the standards evolved, the breeds changed gradually and cats today are bred in a dozen distinct shapes.

Despite the differences in shape (or "type") essential to the various breeds, no standard of points calls for extreme deviation from the basic mongrel cat shape and size, and deformities are severely penalised in all breeds, so that today's cats still move, feed and breed naturally.

## PERSIAN SECTION

The breeds in this section are all Persian in type, varying only in their coat colour, markings and eye colour or, in the case of the Exotics, their coat length. They are big, solid cats with a cobby body, sturdy legs, a short tail and a broad round head with a short nose, small ears set wide apart and large round eyes, the effect is one of roundness and substance, enhanced by the beautiful coat which should be long, dense and silky in Persians, dense and plushy in Exotics.

## SEMI-LONGHAIR SECTION

*This section contains those longhaired breeds which are not of Persian type. The coat is usually less dense than that of the Persian and the head and body are rather longer than those of the Persian longhairs.*

### SEMI-LONGHAIR ADULTS

#### Birman

*This is one of the earliest semi-longhair breeds to be recognised. Although, like the Persian, it should be massive and well-rounded, the body, legs and tail are a little longer than in the Persian and the ears slightly larger, while the nose is straight and of medium length. The eyes are almost round and must be a deep blue. The coat is long and silky. The unique characteristic of this breed is its white feet, the front feet having white "gloves" to cover the toes and the hind feet white "gauntlets" covering the paws and tapering up the back of the leg to the hock.*

**Classes 208 & 209 Cancelled - No Entries**

## The Birman Cat Club Welfare & Rescue

One of the largest pedigree rescue organizations in the Cat Fancy

Registered Charity No. 1123174

**Website:** [www.birmanrescue.co.uk](http://www.birmanrescue.co.uk)

**UK Co-ordinator:** Angie Walker

☎ 01785 251609 or e-mail: [birmanwelfare@aol.co.uk](mailto:birmanwelfare@aol.co.uk)

Genuine offers of homes are always needed, often for a single cat.

All rescues are neutered and vaccinations brought up to date if necessary, before going to their new homes.

Our dedicated team of Area Contacts is available at any time for Birmans in need - please check our website for your nearest telephone contact, or alternatively e-mail the Rescue Co-ordinator.

The Welfare & Rescue holds regular fund-raising social events to help with the costs of veterinary fees and this year's Summer Garden Party raised a wonderful £3000.

The Welfare & Rescue has a fund-raising stall at many shows with tombola or raffle prizes and attractive items for sale such as Birman greetings cards, so do look out for us or visit the online shop on our website where there is also a facility for setting up a Standing Order to make donations.

## Maine Coon - Breed No. 64

*This semi-longhaired breed of medium foreign type originated in the USA, and is bred in a wide variety of colours, often with white markings. Maine Coons have a rugged outdoor appearance with a natural long coat which lacks the fluffiness of the Persian, but are slow to mature to their final large size. This breed is more rectangular than the Norwegian Forest Cat and the head shape is less angular.*

**Norwegian Forest Cat - Breed No. 67**

*This large but elegant semi-longhaired breed originated as an outdoor working cat on Norwegian farms and its appearance should reflect this heritage. It is slow to mature, sometimes taking up to four years to develop fully, and has a distinctive double coat, but coat colour and pattern are irrelevant. The cats here are descended from imported stock, with no outcrosses to other breeds.*

*The RagaMuffin is a large SLH breed, well balanced both in personality and physical characteristics. Their characteristic sweet and gentle expression results from the size, shape and setting of their expressive eyes and puffy whisker pads. A substantial cat with boning consistent with its size. They reach full maturity at approximately four years of age. Females are substantially smaller than males. They are muscular and heavy with a fleshy pad on the lower abdomen. RagaMuffins have coats of almost every colour and pattern, including white tipped tails. RagaMuffins are bred to be sociable, affectionate, cuddly 'teddy bear' companion cats.*

## FOREIGN SECTION

The Foreign section encompasses twelve separate shapes of cat, further subdivided by coat and colour. They have a lithe elegance, intermediate in type between the chunky solidity of the Persians and British Shorthairs and the elongation of the Siamese and Orientals. They all have short coats except the Tiffanies which are included in this section because they are part of the Asian group.

### FOREIGN ADULTS

#### Class 513 Cancelled - No Entries

#### Russian Blue - Breed No. 16

This breed has a long, graceful body and legs with a fairly long tail and a medium length head with a short straight nose making a distinct angle with the forehead. The "Russian" look is created by the large ears set on top of the head, the prominent whisker pads either side of the nose and the almond-shaped, vivid green eyes. A distinctive feature of this breed is its short, fine, velvety dense, clear blue coat which stands up from the body and shows a beautiful silvery sheen.

Another breed of medium foreign type with a blue coat, which is glossy and close-lying but short to medium in length, with silver tipping. The type differences between this and other breeds are that the back is gently curved and the head is heart-shaped when viewed from the front; the ears are large and set high and the nose has a slight downward curve. ### **Devon Rex - Breed No. 33a**

*The Devon Rex is quite unlike any other breed of cat. The slender body is of medium length, the tail and legs are long, especially the hind legs, and the elegant neck tends to emphasise the head; this is wedge-shaped with full cheeks, a short muzzle, a strongly marked stop to the nose and large oval eyes. The big wide-based ears are set rather low on the head and the whisker pads are noticeable, particularly since the whiskers are crinkled. The coat, which may be any colour of any pattern, is very short, fine and soft and its waviness helps create the unique character of this breed.*

## BURMESE SECTION

*The Burmese is another breed of medium foreign type, neither as cobby as the British nor as elongated as the Siamese, but highly distinctive. The tail tapers only slightly and the head has a gently rounded look to its blunt wedge, with a distinct nose-break. The medium size ears are set well apart and tilt slightly forward and the gently slanting eyes, neither round nor oriental, vary in colour from chartreuse, through the ideal golden-yellow, to amber.*

### BURMESE ADULTS

### BURMESE CAT CLUB BENEVOLENT FUND

Registered Charity No 1094488

The Burmese Cat Club is noted for its welfare work and maintains a Benevolent Fund for the immediate relief of Burmese cats in need; the Fund was granted charity status in November 2002. Our Rescue and Rehoming Service helps a significant number of needy cats each year.

Welfare of the Burmese cat is the Club's prime concern and we have a regionally constructed Rescue and Rehoming service helping about 400 needy cats each year. This is dependent entirely upon private donations and any help and support you can give in order to pay for boarding and veterinary costs will be greatly appreciated. If you feel able to help please send donations to the Hon Treasurer making cheques payable to The Burmese Cat Club Benevolent Fund. Cats in emergency situations are housed in suitable accommodation established across the country and available through our network of Regional Advisers.

We also have a service for Lost and Found and abandoned burmese. For more information on all our services please visit the website where you will find contact details of your local Burmese Regional Adviser.

## ORIENTAL SECTION

*The Orientals have the elongated foreign type of the Siamese, with the same elegant length of head, neck, body, legs and tail and the very short, glossy coat, but lack the gene which restricts the colour to the points. They are recognised in ten self colours and seven tortie colours, together with their silver versions, in a variety of patterns giving a total of over two hundred different colour schemes. The section also includes the Angora, the Oriental semi-longhair.*

## SIAMESE AND BALINESE SECTION

*The Siamese type is the most elongated of all, but strong and beautifully balanced, with a long svelte, muscular body, fine legs and feet, a long tapering tail and an elegant neck. The head and large ears form a triangle and the oriental eyes slant towards the nose. The coat of the Siamese is very fine, short, glossy and close-lying, while that of the Balinese is silky and flowing. The colour is, of course, highly distinctive, the eyes being clear bright blue and the beauty of the coat lying in the contrast of the darker points and paler body colour.*

### SIAMESE AND BALINESE ADULTS

# CLUB ROW

The Cat Fancy is made up of many Cat Clubs. Some of these are "area clubs" for cat enthusiasts living in a particular area; these are usually all-breed clubs and often include non-pedigree pets amongst their "breeds". Others are "specialist breed clubs" which cater for a particular breed or group of breeds throughout the country. Many of these clubs have information stalls here today so that members can meet for a chat and potential members can gather information about the clubs and about the various breeds. Many of the specialist breed clubs who are participating in this section have a display of the breeds for which they cater and several of them are exhibiting pedigree cats who were rescued by their Club Welfare group.
