

SIAMESE AND BALINESE SECTION

The Siamese type is the most elongated of all, but strong and beautifully balanced, with a long svelte, muscular body, fine legs and feet, a long tapering tail and an elegant neck. The head and large ears form a triangle and the oriental eyes slant towards the nose. The coat of the Siamese is very fine, short, glossy and close-lying, while that of the Balinese is silky and flowing. The colour is, of course, highly distinctive, the eyes being clear bright blue and the beauty of the coat lying in the contrast of the darker points and paler body colour.

SIAMESE AND BALINESE ADULTS

The Seal and Blue Point Siamese, the two earliest colours, share a UK Grand class.

Classes 944 - 946 Cancelled - No Entries

Seal Point Siamese - Breed No. 24

The points are clearly defined dense seal-brown and the body is cream, shading to warm fawn on the back.
