The Officers and Committee welcome you all to our very first Championship Show. We hope you have a very happy and successful day in our new venue, which once again, Kernow Cat Club have invited us to share. We send our thanks and wish all their members and exhibitors good luck for their day too.

The show simply wouldn't happen without a small army of hard working volunteers to undertake all the essential tasks before and during show day. Thank you everyone who has helped in any way however small!

Thank you to our judges, stewards, vets, table workers and the penning team, who have travelled from all over the country to be here today.

PLEASE DO NOT ATTEMPT TO TOUCH THE EXHIBITS OR PUT YOUR FINGERS INTO THE PENS, TO AVOID THE RISK OF PASSING ANY INFECTION FROM CAT TO CAT, AND ALSO SO THAT THEY WILL NOT BE FRIGHTENED.

PLEASE BE CONSIDERATE TO THE JUDGES – DO NOT CROWD THEIR TABLES WHILST JUDGING IS IN PROGRESS

PLEASE TALK QUIETLY & DO NOT RUN IN THE SHOW HALL

We hope you enjoy your day and that we will see you again next year.

Lesley

PLEASE SUPPORT OUR RESEARCH PROJECTS

The Cat Welfare Trust is the Fancy's own charity, set up by the GCCF in 1988. The Trust Deed was written to enable funds to be used for the widest possible range of activities to benefit cats. Currently the work of cat rescue is undertaken by GCCF Affiliated Cat Clubs and so the Trust has turned to other ways of improving cat welfare.

Three projects have been undertaken so far, all of which have been funded because the subjects were of particular interest to pedigree cat owners and were not likely to attract commercial funding in their initial stages.

The first of these was a Ph.D. research project to study the preparation of a vaccine for ringworm and was undertaken by Ann Robinson at Bristol University Veterinary School. The second - the Genome Project was undertaken by Dr Matthew Binns of the Animal Health Trust and resulted in the identification and analysis of 211 markers on the feline genome map. The most recent - a study into feline chronic gingivostomatitis - was carried out by Kitty Healey at the University of Liverpool. Chronic gingivostomatitis is a condition familiar to many cat owners, this is a very painful disease affecting the gums and mouths of pet cats causing inflammation and ulceration and there is currently no cure for this condition. Kitty's research has established a link between this condition and FCV reinforcing the need for regular vaccination.

The fourth project will be a study to be conducted by Bristol University in conjunction with Manchester University and the University of California-Davis into the genes that play a pivotal role in the control of infectious diseases particularly Feline Infectious Peritonitis.

The study should also objectively determine relative levels of inbreeding in various breeds and whether the gene pool is dangerously narrow putting specific breeds at increased risk of inherited disorders and disease susceptibilities. Results of this latter part of the study should supplement the information available to the BACs when they look at their breeding policies and help encourage best practise.

The Trust is dependent on donations from the Clubs and members of the Fancy and so it is easy to see that in order to be able to make grants large enough to make a difference to cats' lives we rely on you for all the financial support possible. Donations and legacies to the Trust will ensure the continuation of this work. Please remember the Trust when you or your club consider welfare donations.

Please send donations to The Treasurer, Mrs Eileen Fryer, c/o GCCF, 5 King's Castle Business Park, The Drove, Bridgwater, TA6 4AG. Further information is also available from the GCCF Office.

You can help us maximise your support by enabling the Trust to reclaim tax on your donations under the Gift Aid scheme. All you need to do is to state that you pay Income Tax and wish the Cat Welfare Trust to treat your donation as Gift Aid.
