Cat Welfare Trust

The Cat fancy's own Charity. established 1988

Registered Charity No. 800719

cwt

The Cat Welfare Trust is the Fancy's own charity, set up by the GCCF in 1988. The Trust Deed was written to enable funds to be used for the widest possible range of activities to benefit cats. Currently the work of cat rescue is undertaken by GCCF Member Cat Clubs and so the Trust has turned to other ways of improving cat welfare.

Three projects have been completed so far, all of which have been funded because the subjects were of particular interest to pedigree cat owners and were not likely to attract commercial funding in their initial stages.

The first of these was a Ph.D. research project to study the preparation of a vaccine for ringworm and was undertaken by Ann Robinson at Bristol University Veterinary School. The second - the Genome Project was undertaken by Dr Matthew Binns of the Animal Health Trust and resulted in the identification and analysis of 211 markers on the feline genome map. The third - a study into feline chronic gingivostomatitis - was carried out by Kitty Healey at the University of Liverpool. Chronic gingivostomatitis is a condition familiar to many cat owners, this is a very painful disease affecting the gums and mouths of pet cats causing inflammation and ulceration and there is currently no cure for this condition. Kitty's research has established a link between this condition and FCV reinforcing the need for regular vaccination. Kitty's thesis summary can be seen on the GCCF website.

The current project is a study being conducted by Bristol University in conjunction with Manchester University and the University of California-Davis into the genes that play a pivotal role in the control of infectious diseases particularly Feline Infectious Peritonitis.

The study should also objectively determine relative levels of inbreeding in various breeds and whether the gene pool is dangerously narrow putting specific breeds at increased risk of inherited disorders and disease susceptibilities. Results of this latter part of the study should supplement the information available to the BACs when they look at their breeding policies and help encourage best practise.

The Trust is dependent on donations from the Clubs and members of the Fancy and so it is easy to see that in order to be able to make grants large enough to make a difference to cats' lives we rely on you for all the financial support possible. Donations and legacies to the Trust will ensure the continuation of this work. Please remember the Trust when you or your club consider welfare donations.

Please send donations to The Treasurer, Mrs Eileen Fryer, c/o GCCF, 5 King's Castle Business Park, The Drove, Bridgwater, TA64AG. Further information is also available from the GCCF Office.

You can help us maximise your support by enabling the Trust to reclaim tax on your donations under the Gift Aid scheme. All you need to do is to state that you pay Income Tax and wish the Cat Welfare Trust to treat your donation as Gift Aid.

Chairman's welcome

A very warm welcome to everyone attending the 38th Supreme Show, the biggest and best celebration of cats in the UK! If there is one thing constant in this country it is the public's love of cats - here today we have the best of the full range of pedigree breeds as well as our much-loved household pets. The Supreme is the pinnacle showcase for cats in the UK with each competing today to achieve the coveted title of Supreme Exhibit that will be awarded to the single cat who is considered to be the best example of what we are all attempting to achieve within the Cat Fancy.

This is my first Supreme as Chairman and I am looking forward to a special day, we have increased the entry significantly this year with just short of nine hundred cats in competition. The Supreme Show would not be possible without the cats, kittens and their devoted owners who enter this prestigious competition. The cats are the true stars of the show and what we are all celebrating here, so our exhibitors deserve a huge "thank you" for supporting the Supreme in such numbers.

I am pleased to announce that this year, in response to public demand, we have grouped each pedigree breed together in one place in the hall so that visitors can more easily find the breeds they are particularly interested in and can see and compare all representatives, be they adults or kittens, and talk to their owners and breeders.

The logistics of organising a show of this size and complexity are large; our show manager, Celia Leighton and her hard working team are to be commended for all the preparatory work that led up to today, this will continue during the morning as the team prepare for Best of Variety this afternoon. Exhibitors and visitors can enjoy the spectacle and growing excitement as we move to the culmination of the day with each Best of Variety winner competing for the rare privilege of holding the title "Supreme" from now on. I send my personal thanks to our judges, stewards, ring supervisors and vets - you make it all work smoothly and make the day a pleasure for exhibitors and visitors alike. My thanks also go to M F Penning who have worked so well with the Show team.

The GCCF is going through a period of change and development and is investing both time and money in building a new computer system with the objective of delivering swift, high quality and easy accessible services via the Internet. Entry for the Supreme has benefited from this facility this year and the aim is to make registration, transfer of ownership and show entry much easier and accurate. We will be launching a new website very soon as part of this work with the specific aim of helping the public find the right pedigree kitten for them.

"Meet the Cats" is the place to not just see, but to touch and interact with different breeds and to speak to their breeders and owners, each is hosted by their breed club and is a not-to-be-missed experience on your itinerary for today. So if you are thinking about buying a pedigree kitten take this opportunity to find out all you need to know to help you make the most suitable choice of breed for you - the one whose character and appearance will make it the ideal for you and your family. Many of the breeders are members of the GCCF Breeder Scheme, which seeks to improve breeding practices for all.

I'd like to express my gratitude to our supporters and sponsors at this year's show, and in particular our partners: Royal Canin, Agria Pet Insurance, and to R&L Pet Products, who have been so generous, do visit their stands as you enjoy shopping at all the various stalls and kiosks - a bit of shopping therapy always adds to the pleasure of any day out.

I hope everyone has fun and that your day at the Supreme both rewarding and successful!

Steve

Steve Crow, GCCF Chairman

CATALOGUE

Ever since the first cat show was held in 1871, fanciers have had standards of excellence to aim for. At first there was minimal mention of the shape of the cats, the breeds differing mainly in coat length and colour, but the standards evolved, the breeds changed gradually and cats today are bred in a dozen distinct shapes.

Despite the differences in shape (or "type") essential to the various breeds, no standard of points calls for extreme deviation from the basic mongrel cat shape and size, and deformities are severely penalised in all breeds, so that today's cats still move, feed and breed naturally.

PERSIAN SECTION

The breeds in this section are all Persian in type, varying only in their coat colour, markings and eye colour or, in the case of the Exotics, their coat length. They are big, solid cats with a cobby body, sturdy legs, a short tail and a broad round head with a short nose, small ears set wide apart and large round eyes; the effect is one of roundness and substance, enhanced by the beautiful coat which should be long, dense and silky in Persians, dense and plushy in Exotics.

Black & Blue Persians

These two Self breeds are judged together in the Grand class.

Black - GEMS PER n

One of the earliest long-haired breeds, this Persian cat is distinguished by the magnificent contrast of its deep orange or copper eyes and its lustrous raven black coat.

BIRMAN CAT CLUB

Dedicated to all 20 colours of the Birman Breed

www.birmancatclub.co.uk

Chairman: Val Kilby. Vice-Chairman: Anne Madden. Treasurer: Jim Warrender.
Secretary & Membership Secretary: Neil Porter. - elmorebirmans@btinternet.com

The club was founded in 1969, four years after the arrival of the first Birmans in Britain, and is firmly established as one of the country's largest breed clubs with a great deal to offer its members.

One of the many aims of the club is to look after the Beautiful Birman Breed, to preserve and nurture it, both now and in the future. To further these aims members are raising funds for research into cardiac problems. Assisted by other Birman Clubs and Groups we are hoping to raise £10,000. Every penny counts, so please help. You don't need to be a professional, with assistance from a few friends you could hold raffles, auctions, Catty Coffee mornings or Mad Catter's Tea Parties, contact any committee member for more information, or assistance or visit our web site for up to date information on this worthwhile project. We cannot do this alone, we need you all.

We also offer our members:

- An annual Championship Show and After-Show Dinner held early in November, the Show is definitely one for the Calendar you don't want to miss, and the Dinner is always great fun and a chance to relax after a super show day.
- A wide selection of quality merchandise, including a range of exclusive bone china and informative publications, available by mail order.
- A top quality Summer magazine, and Winter Newsletter, with glossy colour covers, and packed full of articles and Birman photo news.
- Our annual Pet Birman of the Year Award which invites all our members to submit a story about their pet for the chance of a trophy and publication in the magazine.
- A Kitten Register co-ordinated by Nicki Fenwick-Raven – Tel: 01255 850021
- A comprehensive website with several unique features such as our popular Veteran Birmans, updated weekly with a free update notification subscription service found on a dedicated web page.

SEMI-LONGHAIR SECTION

This section contains those longhaired breeds which are not of Persian type. The coat is usually less dense than that of the Persian and the head and body are rather longer than those of the Persian longhairs.

Birman

This is one of the earliest semi-longhair breeds to be recognised. Although, like the Persian, it should be massive and well-rounded, the body, legs and tail are a little longer than in the Persian and the ears slightly larger, while the nose is straight and of medium length. The eyes are almost round and must be a deep blue. The coat is long and silky. The unique characteristic of this breed is its white feet, the front feet having white "gloves" to cover the toes and the hind feet white "gauntlets" covering the paws and tapering up the back of the leg to the hock.

Seal-Point Birman - GEMS SBI n

The Seal-Point has seal brown points and a golden hue to its pale beige body.

Maine Coon - GEMS MCO

This semi-longhaired breed of medium foreign type originated in the USA, and is bred in a wide variety of colours, often with white markings. Maine Coons have a rugged outdoor appearance with a natural long coat which lacks the fluffiness of the Persian, but are slow to mature to their final large size. This breed is more rectangular than the Norwegian Forest Cat and the head shape is less angular.

Norwegian Forest Cat - GEMS NFO

This large but elegant semi-longhaired breed originated as an outdoor working cat on Norwegian farms and its appearance should reflect this heritage. It is slow to mature, sometimes taking up to four years to develop fully, and has a distinctive double coat, but coat colour and pattern are irrelevant. The cats here are descended from imported stock, with no outcrosses to other breeds.

AOV Semi-Longhair

At present the other Semi-Longhair breeds share a UK Grand class.

Turkish Van - GEMS TUV

This breed is even less Persian in type, with a long sturdy body, medium length legs and tail and a wedge-shaped head with large upright ears and a long nose. Its round eyes are a light amber colour, blue or one of each. The long silky coat is pure chalk white with patches of colour on the face and a coloured tail. The colour may be auburn, cream, black, blue, tortie, blue tortie, brown or blue tabby, tortie tabby or blue tortie tabby.

Ragamuffin – GEMS RGM

Ragamuffins are a muscular, heavy breed of cat needing approximately four to five years to fully mature. The physical traits of the breed include a rectangular, broad-chested body with shoulders supporting a short neck. Ragamuffins come in all coat colors and patterns with a medium-length coat that increases in length toward the stomach.

BRITISH SECTION

The British Shorthair is a powerful, compact cat with a sturdy body and legs, a shortish tail and a round head with small, widely-spaced ears, large, round eyes and a short, straight nose. The coat is short, dense and crisp rather than fine and close-lying like the Burmese or Siamese, but with no fluffiness to it.

Blue - GEMS BRI a

The British Blue is an unshaded light or medium blue in coat colour, with copper, orange or deep gold eyes.

Tabby British Shorthairs

In the British Tabbies the markings show up clearly on the short coat. The classic tabby pattern, with its "butterfly" marking on the shoulders and "oysters" on the flanks, and the mackerel pattern with thin unbroken lines running vertically from the spine are judged together. In the Spotted the markings consist of numerous clear spots of dark colour on a paler background, with no unbroken lines on the body or legs. In all except the Black Silver Tabbies and Spotties the eye colour is copper, orange or deep gold.

Black Silver Tabby - GEMS BRI ns 22

In the Silver Tabby the markings are jet black on a clear silver ground and the eyes are green or hazel.

Selkirk Rex - GEMS SRS/SRL

The Selkirk Rex is a curly coated breed which originated in the USA. Its type is very similar to the British Shorthair, to which it is outcrossed, with a rounded head, cobby body and sturdy legs. As it may also be outcrossed to Persians and Exotic Shorthairs, Selkirk Rex may be longhaired or shorthaired. Like the other rex breeds, they may be bred in any combination of colour and pattern.

FOREIGN SECTION

The Foreign section encompasses twelve separate shapes of cat, further subdivided by coat and colour. They have a lithe elegance, intermediate in type between the chunky solidity of the Persians and British Shorthairs and the elongation of the Siamese and Orientals. They all have short coats except the Tiffanies which are included in this section because they are part of the Asian group.

Russian Blue - GEMS RUS a

This breed has a long, graceful body and legs with a fairly long tail and a medium length head with a short straight nose making a distinct angle with the forehead. The "Russian" look is created by the large ears set on top of the head, the prominent whisker pads either side of the nose and the almond-shaped, vivid green eyes. A distinctive feature of this breed is its short, fine, velvety dense, clear blue coat which stands up from the body and shows a beautiful silvery sheen.

Korat - GEMS KOR

Another breed of medium foreign type with a blue coat, which is glossy and close-lying but short to medium in length, with silver tipping. The type differences between this and other breeds are that the back is gently curved and the head is heart-shaped when viewed from the front; the ears are large and set high and the nose has a slight downward curve. The eyes, which are particularly large and luminous, are a brilliant green, although an amber cast is acceptable in younger cats.

Abyssinian

The Abyssinian is of a similar medium foreign build to the Russian, but with a very different expression, the ears being set wide apart on the gently curved, medium wedge head, while the large oriental eyes are amber, hazel or green. The coat is very short and fine, each hair having two or three bands of colour on it, thus giving the breed its distinctive ticked appearance.

Usual Abyssinian - GEMS ABY n

The Usual Abyssinian should be a rich golden brown with an apricot base colour and black ticking, black tail tip and black markings up the back of the hind paws.

Cornish Rex - GEMS CRX

This breed has medium foreign body type but with particularly long legs and tail. The head is a medium wedge with a straight nose, large ears set rather high and medium sized oval eyes. The coat is short and plushy with a highly characteristic curl or wave to it, producing ripples all down the body to the tip of the tail; even the eyebrows and whiskers are crinkled. Cornish Rex may be any colour of any pattern.

Devon Rex - GEMS DRX

The Devon Rex is quite unlike any other breed of cat. The slender body is of medium length, the tail and legs are long, especially the hind legs, and the elegant neck tends to emphasise the head; this is wedge-shaped with full cheeks, a short muzzle, a strongly marked stop to the nose and large oval eyes. The big wide-based ears are set rather low on the head and the whisker pads are noticeable, particularly since the whiskers are crinkled. The coat, which may be any colour of any pattern, is very short, fine and soft and its waviness helps create the unique character of this breed.

LaPerm - GEMS LPS, LPL

The LaPerm is a curly coated breed of moderate foreign type which originated in the USA. Unlike the Cornish and Devon Rex, this curly coat is produced by a dominant gene and the breed is recognised in both longhaired and shorthaired versions, with the coat tending to stand out from the body. Like the other rex breeds, they may be bred in any combination of colour and pattern.

Australian Mist – GEMS AUM

Australian Mists are medium-sized short-haired cats, with a round head and large eyes. The coat is very short, without an undercoat. The coat patterns have three levels of definition; (1) ground colour, paler than pattern; (2) pattern, delicate though distinct from ground colour; (3) appears to wear a misted veil, caused by random ticking in the solid colour areas. The legs and tail are ringed or barred, and the face and neck also have delicate lines of colour.

The descriptions of the various breeds will be found under the appropriate breed headings in the Foreign Adult Section.

BURMESE SECTION

The Burmese is another breed of medium foreign type, neither as cobby as the British nor as elongated as the Siamese, but highly distinctive. The tail tapers only slightly and the head has a gently rounded look to its blunt wedge, with a distinct nose-break. The medium size ears are set well apart and tilt slightly forward and the gently slanting eyes, neither round nor oriental, vary in colour from chartreuse, through the ideal golden-yellow, to amber.

Brown Burmese - GEMS BUR n

The colour of the Brown Burmese is a rich, warm seal-brown, marginally darker on the mask and ears and fading slightly to a lighter shade beneath.

BURMESE CAT CLUB BENEVOLENT FUND

Registered Charity No 1094488

The Burmese Cat Club is noted for its welfare work and maintains a Benevolent Fund for the immediate relief of Burmese cats in need; the Fund was granted charity status in November 2002. Our Rescue and Rehoming Service helps a significant number of needy cats each year.

Welfare of the Burmese cat is the Club's prime concern and we have a regionally constructed Rescue and Rehoming service helping about 400 needy cats each year. This is dependent entirely upon private donations and any help and support you can give in order to pay for boarding and veterinary costs will be greatly appreciated. If you feel able to help please send donations to the Hon Treasurer making cheques payable to The Burmese Cat Club Benevolent Fund. Cats in emergency situations are housed in suitable accommodation established across the country and available through our network of Regional Advisers.

We also have a service for Lost and Found and abandoned burmese. For more information on all our services please visit the website where you will find contact details of your local Burmese Regional Adviser.

ORIENTAL SECTION

The Orientals have the elongated foreign type of the Siamese, with the same elegant length of head, neck, body, legs and tail and the very short, glossy coat, but lack the gene which restricts the colour to the points. They are recognised in ten self colours and seven tortie colours, together with their silver versions, in a variety of patterns giving a total of over two hundred different colour schemes. The section also includes the Angora, the Oriental semi-longhair.

Foreign White - GEMS SIA w 67

Oriental Cream & Oriental Apricot - GEMS OSH e, OSH em

The Cream is the dilute version of the Red with a cool cream coat, preferably free from tabby markings. The presence of the dilute modifier gene (which produces the Caramel colour) converts Cream to Apricot - a hot cream with a metallic sheen which becomes more noticeable as the cat matures. Both colours have green eyes.

Oriental Non-Selfs

All of the non-self Oriental Championship status breeds are judged against each other and against the Oriental Longhairs in a single UK Grand class.

Oriental Tortoiseshell - GEMS OSH f, OSH g, OSH h, OSH j, OSH k, OSH q, OSH r

In Oriental Torties the coat may be patched or mingled, the basic colour being sound and free from markings, although tabby markings may show in the red or cream areas. All seven colours are accepted at Championship status - black, chocolate or cinnamon with red, blue, lilac or fawn with cream, and caramel with apricot - all with green eyes.

Oriental Spotted Tabby - GEMS OSH * 24

Apart from its Oriental type, the essential of this breed is its well defined spotted tabby pattern. All colours, including the tortie spotties and the silver versions of all seventeen colours are judged together. The eye colour is green, although it may be less vivid in the Red, Cream and Apricot Spotties.

Oriental Shaded - GEMS OSH * 11

The Oriental Shaded is an agouti cat in which the pattern colour is restricted to half or less of the hair length, the lighter undercolour becoming more extensive with maturity, although many show a broken tabby pattern on the surface, especially as kittens. Both standard and silver Shaded are accepted in the full Oriental colour range, all with green eyes.

Oriental Longhair - GEMS OLH *

This breed differs from the Oriental shorthairs only in its coat length. It is found in the whole range of Oriental colours and patterns and, like the Balinese, has a silky flowing coat, lacking the thick undercoat found in many semi-longhairs and quite unlike the long, thick coat of the Persian.

Oriental Bicolour - GEMS OSH * 03, OLH * 03

These are bred in all Oriental colours and patterns, plus the pointed (Siamese) versions of these colours and patterns, with both short (OSH) and semi-long (OLH) coats. They must have a minimum of one third white, with white on the face, feet and along the underside, up to van distribution of white. The pointed cats all have blue eyes, but the non-pointed cats may have green eyes, one green and one blue or even two blue eyes.

SIAMESE AND BALINESE SECTION

The Siamese type is the most elongated of all, but strong and beautifully balanced, with a long svelte, muscular body, fine legs and feet, a long tapering tail and an elegant neck. The head and large ears form a triangle and the oriental eyes slant towards the nose. The coat of the Siamese is very fine, short, glossy and close-lying, while that of the Balinese is silky and flowing. The colour is, of course, highly distinctive, the eyes being clear bright blue and the beauty of the coat lying in the contrast of the darker points and paler body colour.

Seal or Blue Point Siamese – GEMS SIA n, SIA a

The Seal and Blue Point Siamese, the two earliest colours, share a UK Grand class.

Seal Point Siamese - GEMS SIA n

The points are clearly defined dense seal-brown and the body is cream, shading to warm fawn on the back.

YES! PROGRAMME

YES is an educational programme designed to encourage youth participation in the Cat Fancy. It is a structured programme for the growth and development of junior (8 – 16+) exhibitors within the GCCF. We hope to encourage young people to continue to enjoy their hobby as adults and so become the members, steward, judges and show managers of the future.

MEET THE CATS

The Cat Fancy is made up of many Cat Clubs. Some of these are "area clubs" for cat enthusiasts living in a particular area; these are usually all-breed clubs and often include non-pedigree pets amongst their "breeds". Others are "specialist breed clubs" which cater for a particular breed or group of breeds throughout the country. Many of these clubs have information stalls here today so that members can meet for a chat and potential members can gather information about the clubs and about the various breeds. Many of the specialist breed clubs who are participating in this section have a display of the breeds for which they cater and several of them are exhibiting pedigree cats who were rescued by their Club Welfare group.
