

BURMESE SECTION

The Burmese is another breed of medium foreign type, neither as cobby as the British nor as elongated as the Siamese, but highly distinctive. The tail tapers only slightly and the head has a gently rounded look to its blunt wedge, with a distinct nose-break. The medium size ears are set well apart and tilt slightly forward and the gently slanting eyes, neither round nor oriental, vary in colour from chartreuse, through the ideal golden-yellow, to amber.

Brown Burmese - GEMS BUR n

The colour of the Brown Burmese is a rich, warm seal-brown, marginally darker on the mask and ears and fading slightly to a lighter shade beneath.
