Russian Blue - GEMS RUS a

This breed has a long, graceful body and legs with a fairly long tail and a medium length head with a short straight nose making a distinct angle with the forehead. The "Russian" look is created by the large ears set on top of the head, the prominent whisker pads either side of the nose and the almond-shaped, vivid green eyes. A distinctive feature of this breed is its short, fine, velvety dense, clear blue coat which stands up from the body and shows a beautiful silvery sheen.

356M	Russian Blue Adult Male	Mrs N Johnson

Korat or Thai

The Korat and Thai are judged together in the Grand class.

- 362 Korat/Thai Champion (Grand class)** **Mrs N Johnson**
- 293 Mrs J A Lacey, Ch JENANCA LUK CHAI SURIWONGSE (KOR) (M) 07.03.2017
- 363 Korat/Thai Premier (Grand class)** **Mrs N Johnson**
- 297 Mrs S Ozimkowski, Pr JENANCA LAILA (TAI c) (FN) 23.07.2016

Korat - GEMS KOR

Another breed of medium foreign type with a blue coat, which is glossy and close-lying but short to medium in length, with silver tipping. The type differences between this and other breeds are that the back is gently curved and the head is heart-shaped when viewed from the front; the ears are large and set high and the nose has a slight downward curve. The eyes, which are particularly large and luminous, are a brilliant green, although an amber cast is acceptable in younger cats.

- 364M Korat Adult Male** **Mrs N Johnson**

This class is Sponsored by Korat & Thai Cat Association

Entered for Best of Breed only

- 293 Mrs J A Lacey, Ch JENANCA LUK CHAI SURIWONGSE (KOR) (M) 07.03.2017

297 Mrs S Ozimkowski, Pr JENANCA LAILA (TAI c) (FN) 23.07.2016
IGrPr JUSARKA CENTURION (TAI c 33) x GrCh SERENNOL LILLEE IN PINK (TAI c)
Breeder: Mrs Jen Lacey

Abyssinian

The Abyssinian is of a similar medium foreign build to the Russian, but with a very different expression, the ears being set wide apart on the gently curved, medium wedge head, while the large oriental eyes are amber, hazel or green. The coat is very short and fine, each hair having two or three bands of colour on it, thus giving the breed its distinctive ticked appearance.

322 Mrs A M Linton-Sinclair, Ch ELFE FEERIQUE YASMIN (DRX a 02 21 62) (F) 15.02.2017

Cornish Rex - GEMS CRX

This breed has medium foreign body type but with particularly long legs and tail. The head is a medium wedge with a straight nose, large ears set rather high and medium sized oval eyes. The coat is short and plushy with a highly characteristic curl or wave to it, producing ripples all down the body to the tip of the tail; even the eyebrows and whiskers are crinkled. Cornish Rex may be any colour of any pattern.

407 **Cornish Rex Adult** Mrs S G Bruin
Entered for Best of Breed only

315 Mrs Y Punton, Ch ABIGAIL COLINS GARDEN FIONA (CRX b) (F) 09.01.2013

INDASIA STARLIGHT EXPRESS (CRX d 22) x AURORADAWN TOPAZ (CRX b)
Breeder: Mrs L I Forster

Devon Rex - GEMS DRX

The Devon Rex is quite unlike any other breed of cat. The slender body is of medium length, the tail and legs are long, especially the hind legs, and the elegant neck tends to emphasise the head; this is wedge-shaped with full cheeks, a short muzzle, a strongly marked stop to the nose and large oval eyes. The big wide-based ears are set rather low on the head and the whisker pads are noticeable, particularly since the whiskers are crinkled. The coat, which may be any colour of any pattern, is very short, fine and soft and its waviness helps create the unique character of this breed.

Sphynx - GEMS SPH

The Sphynx is a cat of moderate foreign type which is distinguished by its lack of coat. There is a fine down, making the skin feel like chamois leather, often with thicker down on the nose, back of ears, feet and tail. They may be bred in any combination of colours and patterns.

LaPerm - GEMS LPS, LPL

The LaPerm is a curly coated breed of moderate foreign type which originated in the USA. Unlike the Cornish and Devon Rex, this curly coat is produced by a dominant gene and the breed is recognised in both longhaired and shorthaired versions, with the coat tending to stand out from the body. Like the other rex breeds, they may be bred in any combination of colour and pattern.

Egyptian Mau - GEMS MAU

Developed in the USA from cats originating from Egypt, the Mau is essentially a spotted breed. There are three colours - Bronze (MAU n 24), Silver (MAU ns 24) and Smoke (MAU ns) which, although non-agouti, has been bred to show heavy ghost spotting. All have "gooseberry green" eyes.

Breeder: Mrs S Aubert

Toyger – GEMS TOY

The Toyger is a relative of the Bengal but has been bred for its striped pattern to resemble a mini Tiger with the vertical lines contrasting sharply against the bright intense ruddy ground colour. Like its more familiar cousin the Bengal, the Toyger should always retain the look of smaller version of a wild jungle cat.

GENERAL KNOWLEDGE

Cats sleep for around 12 to 16 hours a day and are generally considered to be either naturally nocturnal (most active at night) or else crepuscular (most active at dawn or dusk) and sleep for over 70% of their life. Cats have powerful night vision, allowing them to see at light levels six times lower than a human needs in order to see.

Cats have over 20 muscles that control their ears.

Cats have an extra organ, that allows them to control breathing so they can 'taste' the air; you may see your cat grimacing when doing this!

Proof that cats are good for us; owning a cat can reduce the risk of stroke and heart attack by a third.

Cats and humans have nearly identical sections of the brain that control emotion.
